Aspects are an essential piece of the astrological puzzle when it comes to interpreting and using the information of actual birth charts and diagrams. • A core textbook at the Faculty of Astrological Studies in London. • Contains comprehensive sections full of interpretations for every planetary combination. • Concepts are explained through the use of actual birth charts and diagrams. • Aspects in Astrology, Tompkins shows how to interpret aspects when doing daily astrological readings. She uses the lives of real people to plot the aspects and offers examples of every possible planetary combination. Detailing the influence of oppositions, trines and elemental trines, and cardinal, mutable, and fixed crosses, Tompkins shows how aspects provide the energy in the chart that transforms the horoscope into something symbolizing an alive and vital human being. With Aspects in Astrology, Tompkins provides both the novice and the experienced astrologer the evidence and concrete methods needed to grasp the vast knowledge offered to us by our horoscope.

Vedic Astrology - Ronnie Gale Dryer - 2005-01-01
This book has been written mainly for beginners who can learn Hindu astrology without having to learn anything by rote. They must do the exercises given at the end of each chapter systematically, again and again. There are many who have read many books on astrology and developed an incurable astrological compulsion. It will be difficult for them to start with a clean slate as they cannot unlearn what they have. Yet, this book may help them remove some of the cobwebs in their minds. They have their minds cluttered with dogmas which they mistake for truths.

The Zodiac by Degrees - Mark Goldsmith - 2012-02-11
This book explores an area of contemporary religion, spirituality and popular culture which has not so far been investigated in depth, the phenomenon of astrology in the modern world. Locating modern astrology historically and sociologically in its religious, New Age and millenarian contexts, Nicholas Campion considers astrology’s relationship to the mysticism of the medieval monks grappling with the nature of time and Tahitian sailors navigating by the stars. We discover how our relationship to the stars and planets has moved from one of personal mythology. For this second edition, every one of the 360 degrees has been reexamined from extensive lists of examples. In the end, about ninety degrees have undergone major changes and all of the rest have been clarified and sharpened. The result is a system of unparalleled accuracy, and an indispensable tool for both amateur and practicing astrologers.

The Clash Within - Martha Nussbaum - 2009-06-30
While America is focused on religious militancy and terrorism in the Middle East, democracy has been under siege from religious fundamentalism worldwide. Nussbaum reveals in this study about the future of the human spirit at India today, the forces of the Hindu right pose a disturbing threat to its democratic traditions and secular state. Nussbaum's long-standing professional relationship with India makes her an excellent guide to its recent history.
