tragic turns, this superb biography captures the figures, producing at once the best life of Fuller ever written, and one of the great biographies in American history. In Volume II, Charles Capper illuminates Fuller's "public years," focusing on her struggles to establish her identity as an influential intellectual woman in the Romantic Age. He brings to life Fuller's dramatic mixture of inward struggles, intimate social life, and deep engagements with the movements of her time. He describes how Fuller struggled to reconcile high avant-garde cultural ideals and Romantic critical methods with democratic social and political commitments, and how she strove to articulate a cosmopolitan vision for her nation's culture and politics. Capper also offers fresh and often startlingly new treatments of Fuller's friendships with Ralph Waldo Emerson, Thomas Carlyle, and Giuseppe Mazzini, in addition to many others.

Transcendentalist movement in New England. This is her introspective account of a trip to the Great Lakes region in 1843. Organized as a series of travel episodes interspersed with literary and social commentary, the work displays a style common to the portfolios, sketch books, and commonplace books kept by educated nineteenth-century women. In addition to her own thoughts about natural landscapes and human encounters, Fuller includes stories, legends, allegorical dialogues, poems, and excerpts from the works of other authors. When she traveled to the Midwest, Fuller was exhausted by her work as editor of the *Dial*, the Transcendentalist journal she edited with Ralph Waldo Emerson. Accompanied during part of the journey by her friends James Clarke and Sarah Clarke, who created the book's etchings, Fuller traveled by train, steamboat, carriage, and on foot in a circle from Niagara Falls north to Mackinac Island and Sault Ste. She comments on the difficulties of pioneer life for women and on the degradation of the region's beautiful and exhilarating natural environment. She speaks favorably about the British-American agrarian visionary, Morris Birbeck, and includes a short story about an old school friend, Mariana, who dies because her active mind cannot adapt to the restrictive codes of behavior prescribed for the era's elite women.

An American Life - Ronald Reagan - 1990-11-15

Ronald Reagan's autobiography is a work of major historical importance. Here, in his own words, is the story of his life—public and private—told in a book both frank and compellingly readable. Few presidents have accomplished more, or been so effective in changing the direction of government in ways that are both fundamental and lasting, than

dramatically raised the American spirit, or done so much to restore national strength and self-confidence. Here, then, is a truly American success story—a great and inspiring one. From modest beginnings as the son of a shoe salesman in Tampico, Illinois, Ronald Reagan achieved first a distinguished career in Hollywood and then, as governor of California and as president of the most powerful nation in the world, a career of public service unique in our history. Ronald Reagan's account of that rise is told here with all the uncompromising candor, modesty, and wit that made him perhaps the most able communicator ever to occupy the White House, and also with the sense of drama of a gifted natural storyteller. He tells us, with warmth and pride, of his early years and of the elements that made him, in later life, a leader of such stubborn integrity, courage, and clear-minded optimism. Reading the account of this childhood, we understand how his parents, struggling to make

With absolute authority and a keen eye for the details and the anecdotes that humanize history, Ronald Reagan takes the reader behind the scenes of his extraordinary career, from his first political experiences as president of the Screen Actors Guild (including his first meeting with a beautiful young actress who was later to become Nancy Reagan) to such high points of his presidency as the November 1985 Geneva meeting with Mikhail Gorbachev, during which Reagan invited the Soviet leader outside for a breath of fresh air and then took him off for a walk and a man-to-man chat, without aides, that set the course for arms reduction and charted the end of the Cold

His narrative is full of insights, from the unseen dangers of Gorbachev's first visit to the United States to Reagan's own personal correspondence with major foreign leaders, as well as his innermost feelings about life in the White House, the assassination attempt, his family—and the enduring love between himself and Mrs. Reagan. *An American Life* is a warm, richly detailed, and

focuses on the central problem of Fuller's life--her identity as a female intellectual--and presents the first biography of Fuller to do full justice to its engrossing subject. This first volume chronicles Fuller's "private years": her gradual, tangled, but fascinating emergence out of the "private" life of family, study, Boston-Cambridge socializing, and anonymous magazine-writing, to the beginnings of her rebirth as antebellum America's female prophet-critic. Capper's biography is at once an evocative portrayal of an extraordinary woman and a comprehensive study of an avant-garde American intellectual type at the beginning of its first creation.

Margaret Fuller Ossoli - 2016-04-08

Sarah Margaret Fuller Ossoli (May 23, 1810 - July 19, 1850), commonly known as Margaret Fuller, was an American journalist, critic, and women's rights advocate associated with the American transcendentalism movement. She was the first full-time American female book reviewer in journalism. Her book *Woman in the Nineteenth Century* is considered the first major feminist work in the United States. Born Sarah Margaret Fuller in Cambridge, Massachusetts, she was given a substantial early education by her father, Timothy Fuller. She later had more formal schooling and became a teacher before, in 1839, she began overseeing what she called "conversations" discussions among women meant to compensate for their lack of access to higher education. She became the first editor of the transcendentalist journal *The Dial* in 1840, before joining the staff of the New York Tribune

biography is at once an evocative portrayal of an extraordinary woman and a comprehensive study of an avant-garde American intellectual type at the beginning of its first creation.

With this first volume of a two-part biography of the Transcendentalist critic and feminist leader, Margaret Fuller, Capper has launched the premier modern biography of early America's best-known intellectual woman. Based on a thorough examination of all the firsthand sources, many of them never before used, this volume is filled with original portraits of Fuller's numerous friends and colleagues and the influential movements that enveloped them. Writing with a strong narrative sweep, Capper focuses on the central problem of Fuller's life--her identity as a female intellectual--and presents the first biography of Fuller to do full justice to its engrossing subject. Margaret Fuller a Psychological Biography -

Katharine Susan Anthony - 2015-06-24

Excerpt from Margaret Fuller a Psychological Biography The life of Margaret Fuller has been the happy hunting-ground of imaginative biographers. The Bacchante, the Sybil, the Pythoress, - these were the usual clarifying terms in which she was explained to the generations which succeeded her. After this Margaret myth had been current for more than thirty years, Mr. Thomas Wentworth Higginson sought to inject some realism into the picture. In his excellent biography, he politely denounced the romantic legend and represented Margaret

he was chiefly concerned with the literary pioneer, and Margaret was, after all, more interesting as a personality than as a writer. About the same time, Mrs. Julia Ward Howe composed another life, emphasizing Margaret's pioneer work for the emancipation of women and also eliminating the "Pythian disguise," the "viraginian aspect," and all the rest of the inflamed rhetoric which had contributed so largely to Margaret's previous reputation. But Mrs. Howe was so magnificently impersonal, that she leaves us more in the dark than ever as to what manner of woman this really was who was so startling and upsetting to her own generation. Margaret Fuller: The public years - Charles Capper - 1992

Filled with dramatic, ironic, and sometimes tragic turns, this superb biography captures the story of one of America's most extraordinary figures, producing at once the best life of Fuller ever written, and one of the great biographies in American history. In Volume II, Charles Capper illuminates Fuller's "public years," focusing on her struggles to establish her identity as an influential intellectual woman in the Romantic Age. He brings to life Fuller's dramatic mixture of inward struggles, intimate social life, and deep engagements with the movements of her time. He describes how Fuller struggled to reconcile high avant-garde cultural ideals and Romantic critical methods with democratic social and political commitments, and how she strove to articulate a cosmopolitan vision for her nation's culture and politics. Capper also offers fresh and

friendships with Ralph Waldo Emerson, Thomas Carlyle, and Giuseppe Mazzini, in addition to many others.
