Modern Crises and Traditional Strategies - R. F. Ellen - 2007
The 1990s have seen a growing interest in the role of local ecological knowledge in the context of sustainable development, and particularly in providing a set of responses to which populations may resort in times of political, economic and environmental instability. The period 1996-2003 in island southeast Asia represents a critical test case for understanding how this might work. The key issues explored in this book are the creation, erosion and transmission of ecological knowledge, and hybridization between traditional and scientifically-based knowledge, amongst populations facing environmental stress e.g. 1997 El Niño, political conflict and economic hazards. The book will also evaluate positive examples of how traditional knowledge has enabled local populations to cope with these kinds of insecurity.

To this day, the perception persists that China was a civilization defeated by imperialist Britain's most desirable trade commodity, opium—a drug that turned the Chinese into cadaverous addicts in the iron grip of dependence. Britain, in an effort to reverse the damage caused by opium addiction, launched its own version of the "war on drugs," which lasted roughly sixty years, from 1880 to World War II and the beginning of Chinese communism. But, as Narcotic Culture brilliantly shows, the real scandal in Chinese history was not the expansion of the drug trade by Britain in the early nineteenth century, but rather the failure of the British to grasp the consequences of prohibition. In a stunning historical reversal, Frank Dikötter, Lars Laamann, and Zhou Xun tell this different story of the relationship between opium and the Chinese. They reveal that opium actually had few harmful effects on either health or longevity; in fact, it was prepared and appreciated in highly complex rituals with inbuilt constraints preventing excessive use. Opium was even used as a medicinal panacea in China before the availability of aspirin and penicillin. But as a result of the British effort to eradicate opium, the Chinese turned from the relatively benign use of that drug to heroin, morphine, cocaine, and countless other psychoactive substances. Narcotic Culture provides abundant evidence that the transition from a tolerated opium culture to a system of prohibition produced a "cure" that was far worse than the disease. Delving into a history of drugs and their abuses, Narcotic Culture is part revisionist history of imperial and twentieth-century Britain and part sobering portrait of the dangers of prohibition.

Indonesia, with its mix of ethnic cultures, cosmopolitan ethos, and strong national ideology, offers a useful lens for examining the intertwining of tradition and modernity in globalized Asia. In Inventing the Performing Arts, Matthew Isaac Cohen explores the profound change in diverse arts practices from the nineteenth century until 1949. He demonstrates that modern modes of transportation and communication not only brought the Dutch colony of Indonesia into the world economy, but also stimulated the emergence of new art forms and modern attitudes to art, disembedded and remoored traditions, and hybridized foreign and local. In the nineteenth century, access to novel forms of entertainment, such as the circus, and newspapers, which offered a new language of representation and criticism, wrought fundamental changes in theatrical, musical, and choreographic practices. Musical drama disseminated print literature to largely illiterate audiences starting in the 1870s, and spoken drama in the 1920s became a vehicle for exploring social issues. Twentieth-century institutions—including night fairs, the recording industry, schools, itinerant theatre, churches, cabarets, round-the-world cruises, and amusement parks—generated new ways of making, consuming, and comprehending the performing arts. Concerned over the loss of tradition and "Eastern" values, elites codified folk arts, established cultural preservation associations, and experimented in modern stagings of ancient stories. Urban nationalists excavated the past and amalgamated ethnic cultures in dramatic productions that imagined the Indonesian nation. The Japanese occupation (1942–1945) was brief but significant in cultural impact: plays, songs, and dances promoting anti-imperialism, Asian values, and war-time austerity measures were created by Indonesian intellectuals and artists in collaboration with Japanese and Korean civilian and military personnel. Artists were registered, playscripts censored, training programs developed, and a Cultural Center established. Based on more than two decades of archival study in Indonesia, Europe, and the United States, this richly detailed, meticulously researched book demonstrates that traditional and modern artistic forms were created and conceived, that is "invented," in tandem. Intended as a general historical introduction to the performing arts in Indonesia, it will be of great interest to students and scholars of Indonesian performance, Asian traditions and modernities, global arts and culture, and local heritage.

**Family Business** - Asih Sumardono - 2007

The Chinese have a saying about family
businesses: the first generation builds the
company, the second generation grows the
company, and the third generation destroys the
company. There are many examples of this
growth and decline in many countries, especially
in Indonesia where the business conglomerates -
mostly owned by ethnic Chinese - are notoriously
secretive; their companies' trials and tribulations
are known only to a very select group. However,
every once in a while, one of the insiders opens
the company's doors and allows the general
public a chance to see what has really transpired
over the generations. Even less frequently are
these stories allowed to be published in a book.
Family Business is one of those rare books. For
the first time, the inside story of one of
Indonesia's largest traditional medicine
companies is available in the English language.
From the tales of the founder's struggles in
raising a family and managing a company, to the
passing of command to its second and third
generations, Family Business is a real insider's
account of how in business, everything is
personal. Filled with anecdotes and court cases,
advertising campaigns and newspaper clippings,
Family Business is an Indonesian success story
and case study detailing what to do - and more
importantly what not to do - in running a family
business. It should be required reading for
entrepreneurs all over the globe. ABOUT THE

After Suharto gained power in Indonesia in the mid-1960s, he stayed as the country’s president for more than three decades, helped by the powerful military, hefty foreign aid and support from a coterie of cronies. A pivotal business backer for his New Order government was Liem Sioe Liong, a migrant from China, who arrived in Java in 1938. A combination of the Suharto connection, serendipity and personal charm propelled him to become the wealthiest tycoon in Southeast Asia. This is the story of how Liem built the Salim Group, a conglomerate that in its heyday controlled Indonesia’s largest non-state bank, the country’s dominant cement producer and flour mill, as well as the world’s biggest maker of instant noodles. The book features exclusive input from Liem, who died in 2012, and his youngest son, Anthony Salim. It traces the founder’s life and the group’s symbiosis with Suharto, his generals and family. After the tumultuous 1997–98 Asian financial crisis sparked Suharto’s fall and a backlash against the strongman’s cronies, Anthony staved off the crushing of the debt-laden group. Told in a journalistic style, the story of the Salim Group provides insights into Suharto’s New Order. For business executives, students and anyone with an interest in Southeast Asia’s largest economy, the volume makes a valuable contribution towards understanding the country’s modern history.

Introductory chapters capture the essence of culinary traditions, traditional herb and spice mixtures, preservation, presentation, and the chemistry of flavors, and individual entries include the chemical compounds and structures responsible for each spice or herb's characteristic flavor. Many of the herbs and spices van Wyk covers are familiar fixtures in our own spice racks, but a few—especially those from Africa and China—will be introduced for the first time to American audiences. Van Wyk also offers a global view of the most famous use or signature dish for each herb or spice, satisfying the gourmand's curiosity for more information about new dishes from little-known culinary traditions. People all over the world are becoming more sophisticated and demanding about what they eat and how it is prepared. Culinary Herbs and Spices of the World will appeal to those inquisitive foodies in addition to gardeners and botanists.

National Integration in Indonesia - Christine Drake - 2019-03-31

Indonesia's great size and diversity and its history of regional dissension have made its struggle for national integration particularly complex. Christine Drake presents an informed and balanced picture of past and present developments in this struggle, offering readers a realistic assessment of the current status and future prospects of national integration in Indonesia. By addressing historical, political, social, and economic issues in conjunction with statistical analysis, Professor Drake argues that the spatial pattern of integration is far more complex than the commonly accepted core-periphery model of Indonesian integration and development. The author examines the effectiveness of Indonesian government policies in promoting national integration and concludes that in general they have led to greater national unity, although many serious problems remain.

Soeharto's New Order and Its Legacy - Edward Aspinall - 2010-08-01

Indonesia's President Soeharto led one of the most durable and effective authoritarian regimes of the second half of the twentieth century. Yet his rule ended in ignominy, and much of the turbulence and corruption of the subsequent years was blamed on his legacy. More than a decade after Soeharto's resignation, Indonesia is a consolidating democracy and the time has come to reconsider the place of his regime in modern Indonesian history, and its lasting impact. This book begins this task by bringing together a collection of leading experts on Indonesia to examine Soeharto and his legacy from diverse perspectives. In presenting their analyses, these authors pay tribute to Harold Crouch, an Australian political scientist who remains one of the greatest chroniclers of the Soeharto regime and its aftermath.

Fugitives and Refugees - Chuck Palahniuk - 2007-12-18
Want to know where Chuck Palahniuk’s tonsils currently reside? Been looking for a naked mannequin to hide in your kitchen cabinets? Curious about Chuck’s debut in an MTV music video? What goes on at the Scum Center? How do you get to the Apocalypse Café? In the closest thing he may ever write to an autobiography, Chuck Palahniuk provides answers to all these questions and more as he takes you through the streets, sewers, and local haunts of Portland, Oregon. According to Katherine Dunn, author of the cult classic Geek Love, Portland is the home of America’s “fugitives and refugees.” Get to know these folks, the “most cracked of the crackpots,” as Palahniuk calls them, and come along with him on an adventure through the parts of Portland you might not otherwise believe actually exist. No other travel guide will give you this kind of access to “a little history, a little legend, and a lot of friendly, sincere, fascinating people who maybe should’ve kept their mouths shut.” Here are strange personal museums, weird annual events, and ghost stories. Tour the tunnels under downtown Portland. Visit swingers’ sex clubs, gay and straight. See Frances Gabe’s famous 1940s Self-Cleaning House. Look into strange local customs like the I-Tit-a-Rod Race and the Santa Rampage. Learn how to talk like a local in a quick vocabulary lesson. Get to know, I mean really get to know, the animals at the Portland zoo. Oh, the list goes on and on.

Buku ini di satu sisi hendak mengafirmasi bahwa spiritualitas dapat mentransformasi potensi kewirausahaan setiap individu untuk mengembangkan ekonominya. Di sisi lain, buku ini mengkritik pandangan bernada pesimis yang menyebut ideologi Islam—tidak seperti etika Protesten—tidak menyokong praktik berwirausaha (Lance Castle), hanya ideologi modernis-reformis sebagai penyuntik etos kerja (Irwan Abdullah), dan ideologi Qadariyyah sebagai ideologi pengusaha dan ideologi Asy’ariyah sebagai ideologi buruh (Nanat Natsir).

sebagai persuasi. Rokok dan merokok dihadirkan sedemikian rupa via bahasa visual dan teks yang memikat, mengesankan bahwa merokok itu "keren," trendy, bagian dari kehidupan modern. Merokok adalah "pass-action" (password) ke pergaulan antar-ras, sebagaimana yang sering tergambarkan pada iklan-iklan sigaret.” - M. Dwi Marianto
