In Her Own Rite - Marjorie Procter-Smith - 1990
Procter-Smith addresses liturgical fundamentals through her exploration of language (verbal, physical and visual), God-talk, preaching and the role of the Bible, and the sacraments. In addressing these theological matters, Procter-Smith suggests different ways of envisioning and practicing a woman-oriented way of worship. Procter-Smith's love and care for the community and church is obvious. She seeks a more inclusive and more relevant connection of liturgy to "real life."

Judith S. Kaye in Her Own Words - Judith S. Kaye - 2019-06-01
An autobiography and selected writings by the former Chief Judge of New York's highest court, the Court of Appeals. In 1983, Judith S. Kaye (1938-2016) became the first woman appointed to the Court of Appeals, New York's highest court. Ten years later, she became the first woman to be appointed chief judge of the court, and by the time she retired, in 2008, she was the longest-serving chief judge in the court’s history. During her long career, she distinguished herself as a lawyer, jurist, reformer, mentor, and colleague, as well as a wife and mother. Bringing together Kaye's own autobiography, completed shortly before her death, as well as selected judicial opinions, articles, and speeches, Judith S. Kaye in Her Own Words makes clear why she left such an enduring mark upon the court, the nation, and all who knew her. The first section of the book, Kaye's memoir, focuses
makes clear why she left such an enduring mark upon the court, the nation, court, and the challenges she faced, as chief judge, in managing a court system populated by hundreds of judges and thousands of employees. The second section, a carefully chosen selection of her written opinions (and occasional dissents), reveals how she guided the law in New York State for almost a quarter century with uncommon vision and humanity. Her decisions cover every facet of New York and federal law and have often been quoted and followed nationally. The final section of the book includes selections from her numerous articles and speeches, which cover the field, from common law jurisprudence to constitutional analysis, all with an eye to the future and, above all, how the law can best affect the everyday lives of people who come to court—willingly or unwillingly—including, not least, those most in need of the law. BACK FLAP “Judith Kaye was one of the most admired judges in the nation— and a wonderful, real, often funny person as well. This collection captures the full range of the judge and the woman, and it serves as a great reminder of her enduring legacy.” — Jeffrey Toobin “An extraordinary woman, jurist, and leader who had a striking impact on the law and the administration of justice in New York State and beyond. This collection is more than a simple record of a remarkable life. It is a treasure—not only for those of us who knew and admired Judith but for all who may seek to understand and appreciate the profound impact she had on the law, the legal profession, and the administration of justice.” — from the Foreword by Honorable Janet DiFiore

The author uses both historical and cross-cultural approaches—as well as a focus on intersectionality and transgender issues—to help students understand the socially constructed nature of gender.

Translation, Authorship and the Victorian Professional Woman - Lesa Scholl - 2016-02-17
In her study of Charlotte Brontë, Harriet Martineau and George Eliot, Lesa Scholl shows how three Victorian women writers broadened their capacity for literary professionalism by participating in translation and other conventionally derivative activities such as editing and reviewing early in their careers. In the nineteenth century, a move away from translating Greek and Latin Classical texts in favour of radical French and German philosophical works took place. As England colonised the globe, Continental philosophies penetrated English shores, causing fissures of faith, understanding and cultural stability. The influence of these new texts in England was unprecedented, and Eliot, Brontë and Martineau were instrumental in both literally and figuratively translating these ideas for their English audience. The influence of these new texts in England was unprecedented, and Eliot, Brontë and Martineau were instrumental in both literally and figuratively translating these ideas for their English audience. Each was transformed by access to foreign languages and cultures, first through the written word and then by travel to foreign locales, and the effects of this exposure manifest in their journalism, travel writing and fiction. Ultimately, Scholl argues, their study of foreign languages and their translation of foreign-language texts, nations and cultures enabled them to transgress the physical and ideological boundaries imposed by English middle-class conventions.

This book explores the conceptual framework of European employment law, focusing on understanding the law's construction of employment relationships. The book draws on extensive comparative research of the legal architecture of employment relations in national legal systems and EU law to analyse the traditional model of the contract of employment and the difficulties of using the traditional model to frame modern working relationships. The authors then present a new model of the foundations of employment relationships, based on the concept of a personal work nexus, and explore the potential of their model to shape the future development of employment law. Throughout the book, the authors analyse the interaction of domestic and EU employment law, and discuss the possibility of future legal harmonisation in the area. They conclude by exploring the potential for a common framework for European employment law, in the context of broader debates surrounding the harmonisation of European private law.

**Building the Human City** - Dr. John F. Kane - 2016-03-30
Building the Human City - Dr. John F. Kane - 2016-03-30
Building the Human City is a first overview of the award-winning yet quite diverse works of Jesuit philosopher William F. Lynch. Writing from the 1950s to the mid-1980s, Lynch was among the first to warn against the fierce polarizations prevalent in our culture wars and political life. He called for a transformation of artistic and intellectual sensibilities and imaginations through the healing discernments and critical ironies of an Ignatian (and Socratic) spirituality. Yet the breadth of his concerns (from cinema and literature to mental health and hope to secularization and faith) as well as the depth of his thought (philosophical as much as theological) led to little initial awareness of the overall vision uniting his writings. This book, while exploring that vision, also argues that the spirituality Lynch proposes is more needed today than when he first wrote.

Nation-Building and Identity in the Post-Soviet Space - Rico Isaacs - 2016-04-14
Nation-building as a process is never complete and issues related to identity, nation, state and regime-building are recurrent in the post-Soviet region. This comparative, inter-disciplinary volume explores how nation-building tools emerged and evolved over the last twenty years. Featuring in-depth case studies from countries throughout the post-Soviet space it compares various aspects of nation-building and identity formation projects. Approaching the issue from a variety of disciplines, and geographical areas, contributors illustrate chapter by chapter how different state and non-state actors utilise traditional instruments of nation-construction in new ways while also developing non-traditional tools and strategies to provide a contemporary account of how nation-formation efforts evolve and diverge.

The Right to Have Rights - Alison Kesby - 2012-01-12
Writing in the immediate aftermath of the Second World War, the political
theorist Hannah Arendt argued that the plight of stateless people in the
inter-war period pointed to the existence of a 'right to have rights'. The
right to have rights was the right to citizenship-to membership of a political
community. Since then, and especially in recent years, theorists have
continued to grapple with the meaning of the right to have rights. In the
context of enduring statelessness, mass migration, people flows, and the
contested nature of democratic politics, the question of the right to have
rights remains of pressing concern for writers and advocates across the
disciplines. This book provides the first in-depth examination of the right to
have rights in the context of the international protection of human rights. It
explores two overarching questions. First, how do different and competing
conceptions of the right to have rights shed light on right bearing in the
contemporary context, and in particular on concepts and relationships
central to the protection of human rights in public international law?
Secondly, given these competing conceptions, how is the right to have
rights to be understood in the context of public international law? In the
course of the analysis, the author examines the significance and limits of
nationality, citizenship, humanity and politics for right bearing, and argues
that their complex interrelation points to how the right to have rights might
be rearticulated for the purposes of international legal thought and
practice.

Handbook for Liturgical Studies, Volume V - Anscar J. Chupungco -
2016-03-24
The final volume in the Handbook for Liturgical Studies series, Volume V:
Liturgical Time and Space contains the concluding material for an integral
study of the liturgy. It opens with a preliminary notion of time and space,
before discussing in detail three types of liturgical celebrations on which time and space have a direct and particular bearing. The first of these is the Liturgy of the Hours. This topic is developed in the light of the early Christian tradition until the fourth century and its subsequent forms in both East and West. The second is the Liturgical Year, traditionally called the anni circulas. The development of the Liturgical Year during the first four centuries is reviewed. This is followed by a detailed study of the Byzantine, Roman, and non-Roman Western tradition. It concludes with the theology and spirituality of the Liturgical Year wherein the mystery of Christ as a saving event is made present in time, so that the faithful may lay hold of it through the Word and the sacraments. The theology of liturgical space is drawn from the mutual interaction between the assembled community, which gives meaning to the place of assembly, and the place itself, which upholds and signifies community. Donna Has Left the Building - Susan Jane Gilman - 2019-06-04
From the beloved New York Times bestselling author of Hypocrite in a
Pouffy White Dress comes a hilarious, timely, and big-hearted novel about
rebuilding life in the face of disaster. Forty-five-year-old Donna Koczynski is
an ex-punk rocker, a recovering alcoholic, and the mother of two teenagers
whose suburban existence detonates when she comes home early from a
sales conference in Las Vegas to the surprise of a lifetime. As her world
implodes, she sets off on an epic road trip to reclaim everything she believes
she’s sacrificed since her wild youth: Great friendship, passionate love, and
her art. But as she careens across the U.S. from Detroit to New York to
Memphis to Nashville, nothing turns out as she imagines. Ultimately, she
finds herself resurrected on the other side of the globe, on a remote island
embroiled in a crisis far bigger than her own. Irresistibly funny, whip-smart,
and surprisingly moving, Donna Has Left the Building spins an
unforgettable tale about what it means to be brave -- and to truly love -- in a
tumultuous world.
Hochschild draws on her expert knowledge of the sociology of emotion to help us understand what it feels like to live in "red" America. Along the way she finds answers to one of the crucial questions of contemporary American politics: why do the people who would seem to benefit most from "liberal" government intervention abhor the very idea?

**Strangers in Their Own Land** - Arlie Russell Hochschild - 2016-09-06

In Strangers in Their Own Land, the renowned sociologist Arlie Hochschild embarks on a thought-provoking journey from her liberal hometown of Berkeley, California, deep into Louisiana bayou country—a stronghold of the conservative right. As she gets to know people who strongly oppose many of the ideas she famously champions, Hochschild nevertheless finds common ground and quickly warms to the people she meets—among them a Tea Party activist whose town has been swallowed by a sinkhole caused by a drilling accident—people whose concerns are actually ones that all Americans share: the desire for community, the embrace of family, and hopes for their children. Strangers in Their Own Land goes beyond the commonplace liberal idea that these are people who have been duped into voting against their own interests. Instead, Hochschild finds lives ripped apart by stagnant wages, a loss of home, an elusive American dream—and political choices and views that make sense in the context of their lives. Reports of Cases Argued and Determined in the English Courts of Common Law - Great Britain. Bail Court - 1854

This book addresses the integration of service subsystems such as lighting, heating and air conditioning, water supply, electrical power, waste removal and elevators into a building. The authors discusses and illustrates the construction development of these systems within a building, as well as the response of the general building construction to the incorporation of these systems. Case studies of nine buildings provide an on-the-job look at wide range of building uses, sizes and forms of construction. Designers and builders using this guide gain a rare opportunity to see the specific development of individual subsystems within the context of the general building framework.
