**The Lover's Dictionary** - David Leavitt - 2011-01-21
basis, n. There has to be a moment at the beginning when you wonder whether you're in love with the person or in love with the feeling love itself. "I've lost the moment doesn't pass. That's it--you're in love. And if the moment does pass it never goes that far. It stands in the distance, ready for whenever you want it. Sometimes it's even there when you don't want it. Sometimes you know you love someone and you don't want to talk to them about love. Do we even have the right words to describe something that can be both utterly mundane and completely transcendental, pulling us out of our everyday lives and making us feel such a part of something greater than ourselves? Under such circumstances, a well-crafted narrative can be absolutely essential. The Lover's Dictionary has constructed the story of his relationship as a dictionary. Through these short entries, he provides an intimate look into the complexity and fragility of being within a couple, giving us an indelible and deeply moving portrait of love in our time.
