Regionalism and the State - Gordon Mace - 2017-11-30
Empirically rich with highly detailed case studies on the North American Free Trade Agreement (NAFTA), this comprehensive volume studies the relationship between regionalism and state behavior. The traditional pattern of past studies of regionalism and regional integration has been to understand how state strategies molded the dynamics of an integration process. This study examines the impact of regionalism on the policy preferences of member states. This volume offers three theoretical contributions: an empirical test of the convergence hypothesis studies of institutions and their impact on domestic politics an
examination of foreign policy preferences and the neo-functionalist concept of 'spill-over' Recommended reading for students of regionalism, international political economy, international trade, foreign policy and North American studies.

**Globalizing Regionalism and International Relations**
Futák-Campbell, Beatrix - 2021-05-20
Building on the recent initiative to truly globalize the field of International Relations, this book provides an innovative interrogation of regionalism. The book applies a globalizing framework to the study of regional worlds in order to move beyond the traditional conception of regionalism, which views regions as competing blocs dominated by great powers. Bringing together a wide range of case studies, the book shows that regions are instead dynamic configurations of social and political identities in which a variety of actors, including the less powerful, interact and partake in regionalization
"Impatient with globalist assumptions concerning the nature of the current international system, authors convincingly argue that recent developments have created 'a particularly favorable environment for the establishment of a new regional system of the Americas;' less persuasively predict an eventual 'true community of American nations.'"--Handbook of Latin American Studies, v. 57.

analyzes and projects the Cold War World - Stephen C Calleya - 2018-03-29
This title was first published in 2000: This text describes, analyzes and projects the implications of regionalism on contemporary international relations. Regional policy positions are examined in order to increase our understanding of how the direct impact patterns of relations at a regional level of analysis are having in the shifting balance of international power. The book clarifies what types of regional dynamics are manifesting themselves in different parts of the world, and consists of both theoretical and empirical assessments (similar to those developed in the author's previous book on regionalism) that ensures that the comparative analysis conducted is a comprehensive and coherent one.

Regionalism in the Post-Cold War World - Stephen C Calleya - 2018-03-29
This title was first published in 2000: This text describes, implications of regionalism on contemporary international relations. Eurasian Regionalisms and Russian Foreign Policy - Mikhail A. Molchanov - 2016-03-03
Bridging foreign policy analysis and international political economy, this volume offers a new look at the problem of agency in comparative regional
examination of the evolving regional integration projects in the Eurasian space, defined as the former Soviet Union countries and China, and the impact that Russian foreign policy has had on integration in the region. Mikhail Molchanov argues that new regionalism in Eurasia should be seen as a reactive response to contemporary challenges that these developing states face in the era of globalization. Regional integration in this part of the world treads the unknown waters and may not simply repeat the early steps in the evolution of the European Union. The question of a hegemonic leadership in particular, as exercised by a country that spearheads regional integration efforts, animates much of the discussion offered in the book. Moreover, Eurasian regionalisms are plural phenomena because of complementary and competing projects that engage the same, or partially overlapping, groups of countries. By combining foreign policy studies with an international political economy of regionalism in Eurasia the author furthers our understanding of new regionalism, both theoretically and empirically.

Eurasian Regionalisms and Russian Foreign Policy - Mikhail A. Molchanov - 2016-03-03
Bridging foreign policy analysis and international political economy, this volume offers a new look at the problem of agency in comparative regional integration studies. It examines evolving regional integration projects in the Eurasian space, defined as the former Soviet Union countries and China, and the impact that Russian foreign policy has had on integration in the region. Mikhail Molchanov argues that new regionalism in Eurasia should be seen as a reactive response to contemporary challenges that these developing states face in the era of globalization. Regional integration in this part of the world treads the unknown waters and may not
ensure Singapore's survival, in the evolution of the European Union. The question of a hegemonic leadership in particular, as exercised by a country that spearheads regional integration efforts, animates much of the discussion offered in the book. Moreover, Eurasian regionalisms are plural phenomena because of complementary and competing projects that engage the same, or partially overlapping, groups of countries. By combining foreign policy studies with an examination of the international political economy of regionalism in Eurasia the author furthers our understanding of new regionalism, both theoretically and empirically.

**Singapore's Foreign Policy**
- Amitav Acharya - 2008
The conventional understanding of Singapore's foreign policy can be summarized in three main propositions: first, it is dictated by the imperatives of being a small state; second, its primary purpose is to ensure Singapore's survival, given its small size; and third, this logic of survival dictates a realpolitik approach to foreign policy and national security. This book argues that an exclusively realist view of Singapore's foreign policy is inadequate. Singapore's foreign policy is also shaped by the positive effects of economic interdependence and regional institution-building OCo instruments that realists tend to dismiss, but which Singapore has self-consciously tried to promote as instruments of regional order. The book first looks at the evolution of Singapore's foreign policy, before analyzing Singapore's international relations and national security in the context of economic growth and terrorism. It concludes with an interesting chapter on the impact of the rise of China and India on the regional landscape. Sample Chapter(s).

Introduction: Rethinking Singapore's Foreign Policy (435 KB). Chapter 1: The Evolution of Singapore's Foreign Policy: Challenges of Change (468 KB). Contents:
being a small state; second, Singapore's Foreign Policy; Part I: Foundations: The Evolution of Singapore's Foreign Policy: Challenges of Change; The Economic Foundations of Singapore's Security: From Globalism to Regionalism?; Part II: Adaptations: Diplomacy in Hard Times: Singapore Confronts Global Terrorism and Regional Regression; Waging the War on Terror: Singapore's Responses and Dilemmas; Singapore and Southeast Asia in a Fast-changing Landscape: Coping with the Rise of China and India. Readership: Undergraduates, graduates and academics in foreign policy and international relations; government ministries; general readers interested in Singapore issues."

United States Foreign Policy Toward Economic Regionalism in Latin America - Robert Michael McChesney - 1966

Foreign Policy in North Africa - Irene Fernandez Molina - 2020-12-17

Foreign Policy in North Africa explores how the foreign policies of North African states, which occupy a peripheral and subaltern position within the global system, have actively responded to the constraints and opportunities stemming from multi-level transformations in the 2010s. What has been the extent of continuity and change in each country’s foreign policy-making and behaviour under such conditions? Which structural and agential factors explain the variations observed, or the lack thereof? Building on scholarship on foreign policy in the Global South and the Middle East and North Africa (MENA) as well as the international impact of the 2011 Arab uprisings, case studies on six different countries focus on a
Foreign Policy in North Africa will be of great interest to scholars of North African politics and international relations, Middle Eastern and North African studies, foreign policy and global international relations. The chapters were originally published as a special issue of The Journal of North African Studies.

Foreign Policy in North Africa - Irene Fernandez Molina - 2020-12-17

Foreign Policy in North Africa explores how the foreign policies of North African states, which occupy a peripheral and subaltern position within the global system, have actively responded to the constraints and opportunities stemming from multi-level transformations in the 2010s. What has been the extent of continuity and change in each country’s foreign policy-making and behaviour under such conditions? Which structural and agential factors explain the variations observed, or the lack thereof? Building on scholarship on foreign policy in the Global South and the Middle East and North Africa (MENA) as well as the international impact of the 2011 Arab uprisings, case studies on six different countries focus on a specific level of analysis for each. These range from the global (Tunisia’s financial predicaments and foreign debt negotiations) through the (sub)regional (Egypt’s relationship of necessity with Saudi Arabia, Algeria’s half-hearted policies towards the conflicts in Libya and Mali) to the domestic sphere (Morocco’s power balance between the monarchy and the Islamist-led government, Libya’s extreme state weakness and internal competition among proliferating actors), reaching also the deeper non-state societal level in the case of Mauritania. The volume concludes by examining post-2011 developments in the longstanding Algerian-Moroccan rivalry which hinders regional integration in the Maghreb.
Indonesia in ASEAN - Dewi Fortuna Anwar - 1994
Much has been written about the Association of Southeast Asian Nations and about Indonesia’s foreign policy, but few scholars have specifically focused on Indonesia’s foreign policy in ASEAN. Indonesia in ASEAN: Foreign Policy and Regionalism tries to fill this academic gap.

The International Relations of Japan and South East Asia - Sueo Sudo - 2013-01-11
The International Relations of Japan and South East Asia asks three main questions: how and when has a new South East Asian regionalism been set in motion? what is the nature of Japanese
maintaining and promoting that new regionalism?; and, given the current economic and political crisis, what will happen to regionalism in the future? This work is an invaluable resource for students and scholars as it gives a complete overview of Japanese foreign policy and Japan-South East Asian relations.

The International Relations of Japan and South East Asia - Sueo Sudo - 2013-01-11
The International Relations of Japan and South East Asia asks three main questions: how and when has a new South East Asian regionalism been set in motion? what is the nature of Japanese leadership and networking in maintaining and promoting that new regionalism?; and, given the current economic and political crisis, what will happen to regionalism in the future? This work is an invaluable resource for students and scholars as it gives a complete overview of Japanese foreign policy and Japan-South East Asian relations.

The Oxford Handbook of Kenyan Politics - Nic Cheeseman - 2020-02
Kenya is one of the most politically dynamic and influential countries in sub-Saharan Africa. Today, it is known in equal measure as a country that has experienced great highs and tragic lows. In the 1960s and 1970s, Kenya was seen as a "success story" of development in the periphery, and also led the way in terms of democratic breakthroughs in 2010 when a new constitution devolved power and placed new constraints on the president. However, the country has also made international headlines for the kind of political instability that occurs when electoral violence is expressed along ethnic lines, such as during the "Kenya crisis" of 2007/08 when over 1,000 people lost their lives and almost 700,000 were displaced. The Oxford Handbook of Kenyan Politics explains these developments and many more, drawing together 50 specially

**Power Relations and Comparative Regionalism**
- Min-hyung Kim - 2021-07-29

Three trends have dominated the political economy of integration during the last two decades: globalization, economic nationalism, and regionalization. This book explores comparative regional integration and relations among regions in the context of power. The most common focus of integration studies has been on the logic of cooperation, but there is another logic of integration: power. The relevance of power today is represented by the relations within the Eurozone, especially between creditors and debtors. By the same line of reasoning, integration in Asia cannot ignore the respective roles of China, Japan, and Korea, nor the unresolved disputes about Taiwan, Hong Kong, and the islands in the South China Sea. This edited volume addresses the role of power in regional integration in three contexts: (1) the role of hegemonic external actors (the US and China) in regional integration; (2) the role of core states within regions (Germany, China, Japan, and Brazil); and (3) the role of noncore states- smaller and middle range powers (Italy and Greece in Europe; South Korea and Malaysia in Asia; and Argentina, Colombia, Uruguay, and Paraguay in
Power Relations and Comparative Regionalism - Min-hyung Kim - 2021-07-29
Three trends have dominated the political economy of integration during the last two decades: globalization, economic nationalism, and regionalization. This book explores comparative regional integration, focusing on both intra regional integration and relations among regions in the context of power. The most common focus of integration studies has been on the logic of cooperation, but there is another logic of integration: power. The relevance of power today is represented by the relations within the Eurozone, especially between creditors and debtors. By the same line of reasoning, integration in Asia cannot ignore the respective roles of China, Japan, and Korea, nor Taiwan, Hong Kong, and the islands in the South China Sea. This edited volume addresses the role of power in regional integration in three contexts: (1) the role of hegemonic external actors (the US and China) in regional integration; (2) the role of core states within regions (Germany, China, Japan, and Brazil); and (3) the role of noncore states- smaller and middle range powers (Italy and Greece in Europe; South Korea and Malaysia in Asia; and Argentina, Colombia, Uruguay, and Paraguay in Latin America). This book will benefit students and scholars of international relations and comparative political economy, especially those with an interest in integration studies and comparative regionalism.

The Challenges for Building Regional Integration in the Global South - Tullo Vigevani - 2022-06-09
This book analyzes regional integration in South America with a focus on the Mercosur.
Brazilian foreign policy and from the 1990s. It reviews the history of the Mercosur and identifies the results achieved by the bloc, as well as the causes of difficulties and the reasons for stalemates over nearly 30 years of its existence. The authors identify the complex interrelation between domestic and foreign factors that have shaped Brazilian foreign policy. From 1991 onwards, relations between Latin American countries have changed while the Mercosur developed from a free trade area to a customs union. While intrabloc trade grew, there were huge difficulties in the form of regional institutional affirmation and cooperation. This history is of the utmost importance to understanding regionalism and politics in Latin America. The book therefore has two interrelated analytical dimensions: namely, focus on ideas and identity; and behavior, actions, and economic and political interests. This very topical book is of interest for researchers and students of those of Latin American and/or Mercosur countries. Particularly, readers interested in regionalism will find important theoretical and empirical elements in this book, as well as discussions necessary for comprehending the role of big, emerging countries, and the potential and limits to their international role.

Crafting Cooperation - Amitav Acharya - 2007-11-22
Regional institutions are an increasingly prominent feature of world politics. Their characteristics and performance vary widely: some are highly legalistic and bureaucratic, while others are informal and flexible. They also differ in terms of inclusiveness, decision-making rules and commitment to the non-interference principle. This is the first book to offer a conceptual framework for comparing the design and effectiveness of regional international institutions, including the EU, NATO, ASEAN, OAS, AU and the Arab League. The case studies, by a group of leading scholars of regional institutions, offer a rigorous, historically informed analysis of the differences and

Globalizing Regionalism and International Relations - Beatrix Futák-Campbell - 2021-05-20

The Americas in Transition
- Gordon Mace - 1999
The FTA, Mercosur, the Enterprise for the Americas Initiative, NAFTA, the Summit of the Americas - do these constitute building blocks in the construction of a new regional system? This book explores that question, offering an assessment of the state of regionalism in the Americas.
challenges in each region are the construction of a new regional system? This book explores that question, offering an assessment of the state of regionalism in the Americas.

**US Foreign Policy in a Challenging World** - Marco Clementi - 2017-07-18
This book examines how the US is dealing with the challenge of reconciling its global interests with regional dynamics and how it is able to produce and sustain order at the system level and within regional subsystems. The book comprises four parts, the first of which addresses global issues such as nonproliferation, trade, and freedom of the seas. US policies in these areas are carefully analyzed, considering whether and how they have been differently implemented at the regional level. The remaining parts of the book focus on the US posture toward specific regions: Europe, the Middle East, and East Asia. The policies adopted by the US to confront the most relevant identified, and the ways in which policies in a specific region influence or are influenced by challenges in another region are explored. The book is a rich source of knowledge on the nature of the balance that the US has pursued between global and regional interests. It will be of much interest to scholars, to practitioners, to postgraduate/PhD students of international relations theory and American foreign policy, and to all with an interest in the ability of the US to produce international order.

Etel Solingen - 2014-07-11
This book comprises key essays on comparative regionalism and, more broadly, on regional conflict and cooperation by Professor Etel Solingen. The study of regionalism, a subject pioneered by Solingen in the 1990s, is now an established field of inquiry, with a large community of scholars and practitioners around the world. This book provides a window into an evolving conceptual framework for comparing regional arrangements, with a special emphasis on non-European regions. Framed by a comprehensive, previously unpublished introduction, the chapters provide a broad spectrum of analysis on domestic political economy, democracy, regional institutions, and global forces as they shape different regional outcomes and trajectories in economics and security. Themes as different as the regional effects of democratization in the Middle East and East Asia, the rise of China, Euro-Mediterranean relations, and regional nuclear trajectories are traced back to a common analytical core. The nature of domestic ruling coalitions serves as the pivotal analytical anchor explaining the effects of globalization and economic reform on different regional arrangements. This collection provides a focal point that brings this work together in a new light and will be of much interest to students of regionalism, international relations theory, international and comparative political economy, international history and grand strategy.
Britain's strengths and pivotal analytical anchor explaining the effects of globalization and economic reform on different regional arrangements. This collection provides a focal point that brings this work together in a new light and will be of much interest to students of regionalism, international relations theory, international and comparative political economy, international history and grand strategy.

**Bilateral Relations, Regions, and Regionalism** - Jean-Louis Durand - 1996

**British Foreign Policy** - Laurence Martin - 1997-01-01

Has the 20th century been one of steady decline for British foreign policy? Can there be a distinct British foreign policy in age of regionalism and globalization? This study challenges perceptions of irrevocable decline and suggests a more balanced assessment of weaknesses. As "high politics", including security concerns diminish in importance, economic and commercial concerns increasingly seem to dictate foreign policy. On the assumption that what the population seeks is a combination of physical security, prosperity and what could be termed "moral self-approbation", this study suggests ways in which Britain could capitalize on its influence and assets to promote its interests. A framework is provided for thinking about British foreign policy at a time when globalization, multinational companies, NGOs, the European Union and other factors increasingly constrain the freedom of government and the traditional role of the foreign office.

Regionalism in New Zealand Foreign Policy - Ian Andrew Simson - 1975

Regionalism, Multilateralism, and Deeper Integration - Robert Z. Lawrence - 2000-07-26
Over the past decade, international economic liberalization has been pursued through both multilateral and regional arrangements. In the Uruguay Round, more than one hundred governments pledged their commitment to greater open trade in goods and services, and established new rules under the enforcement of the World Trade Organization. At the same time, however, many regional arrangements have been negotiated--including the European Union and the North American Free Trade Agreement. Nonetheless, controversy still rages about these arrangements. Are regional arrangements stumbling blocks or, in fact building blocks for a more integrated and successful
building blocks for a more integrated and successful international economy? In this book, Robert A. Lawrence addresses this question and explains both sides of the debate. A volume of Brookings' Integrating National Economies Series

**India's Foreign Policy and Regional Multilateralism** - Arndt Michael - 2013-02-07
The book provides a novel analytical perspective on regional multilateralism in South Asia and its neighbouring regions and covers the genesis, evolution and status quo of the four major regional organizations.

**Regionalism, Multilateralism, and the**
The essays in this volume reflect the current debate about whether the new regionalism and interregional politics of the last decade support or undermine the global trading system. Political scientists and international relations scholars from North America examine the changing relationship between regionalism and multilateralism, and discuss the implications for national policy in the globalized economy. The essays are arranged into four categories covering regionalism, globalism, and the state; the dynamics of regional integration; interregional relations; and the policy implications, particularly for Canada.

**Regionalism, Multilateralism, and the Politics of Global Trade** - Donald Barry - 1999

The essays in this volume reflect the current debate about whether the new regionalism and interregional politics of the last decade support or undermine the global trading system.

**Japan’s Asian Diplomacy** - Hidetaka Yoshimatsu - 2020-11-13

This book provides a comprehensive analysis of Japan’s Asian diplomacy under Prime Minister Shinzō Abe. Under the Kantei-centred policymaking system, Shinzō Abe has implemented
assertive foreign policies with a slogan of ‘diplomacy taking a panoramic perspective of the world’. The analyses in the book cover the traditional and emerging fields of national security and international political economy. While its empirical examination is based on field-specific research, it also incorporates the analysis of Japan’s bilateral relations with China, the US, India, and others. In addition, the book provides a solid, theory-driven analysis of Japan’s external policy and relations. In an independent chapter, this work sets up integrative theoretical frameworks for empirical analyses by relying on key concepts drawn from the three international relations theories of realism, liberalism and constructivism. Going forward, research in this book also explores the development of key regional affairs. Maritime security and space security are two of major security-related affairs, in which the states in East Asia and the Asia-Pacific have to engage, including the development of the TPP infrastructure development and development cooperation, which are crucial in relation to China’s initiatives in the BRI and AIIB. Lastly, the book provides valuable references to regionalism in East Asia and the Asia-Pacific by analyzing regional integration/cooperation through free trade agreements and the development of regional connectivity. This includes the evolution of cooperation and conflict within key regional frameworks such as the East Asia Summit and APEC, as well as key regional visions such as the Free and Open Indo-Pacific. It also takes into account the possible influence of ideational factors such as norms, principles, and rules on the development of regional cooperation.

Regionalism and how it
Influences Foreign Policy
Decisions in the United
States - Troy M. Frederick -
2002
the study reveals that India pursued predominantly hegemonic strategies and was not able to generate genuine followership among its smaller neighbours. The South Asian case therefore shows the discrepancy that may exist between the possession of power capabilities and the ability to exercise actual influence: a conclusion which lifts the study from geographical specifics, and extends its relevance to other cases and cross-regional comparisons.

This text will be of much interest to students of Indian foreign policy, Asian security, foreign policy analysis, strategic studies and IR in general.

Indian Foreign and Security Policy in South Asia - Sandra Destradi - 2012-02-27
This book examines Indian foreign policy and security relations in its eastern regional neighbourhood. Indian Foreign and Security Policy in South Asia conducts an in-depth analysis into India’s foreign policy towards the three main countries in India’s Eastern neighbourhood – Sri Lanka, Nepal, and Bangladesh. In particular, it deals with India’s role in the final years of the civil war in Sri Lanka, its approach to the peace and democratisation process in Nepal, and Indian foreign policy towards Bangladesh on a range of issues including Islamist militancy, migration, border security, and insurgency. Set within an analytical framework centred on the notions of ‘empire’, ‘hegemony’, and ‘leadership’,

**Regionalism in World Politics** - Louise L’Estrange Fawcett - 1995
This book brings together the many different institutions and ideas to be found under the label of 'regionalism'; it places the revival of regionalism in a broader historical perspective; it asks whether there are common factors behind the revival of regionalism in so many different parts of the world; and it analyzes the cumulative impact of different brands of regionalism on international order. Leading specialists examine recent developments in regional cooperation in different parts of the world. They take a critical look at recent trends towards the new regionalism and regionalization, assessing their origins, their present and future prospects; and their place in the evolving international order. As well as concentrating on specific
They take a critical look at Asia, the Americas, Europe, and the Middle East, the book looks at theories of regionalism, the balance between regionalization and globalization in the world economy, the relationship between regional organizations and the United Nations, and the relationship between the revival of regionalism and questions of identity and nationalism.

**Currency and Contest in East Asia** - William M. Grimes - 2011-03-15
Since the Asian Financial Crisis of 1997-98, East Asian economies have sought to make themselves less vulnerable to global financial markets by transforming the regional financial architecture. With Japan as a leading actor, they have
of regional financial cooperation, the possible effects of Sino-Japanese rivalry on regional financial stability, and the potential for East Asian financial regionalism to undermine the long-established-albeit waning-global and regional dominance of the United States and the dollar.

**Currency and Contest in East Asia** - William M. Grimes - 2011-03-15
Since the Asian Financial Crisis of 1997-98, East Asian economies have sought to make themselves less vulnerable to global financial markets by transforming the regional financial architecture. With Japan as a leading actor, they have introduced initiatives to provide emergency financing to crisis economies, support the development of local-currency bond markets, and better coordinate currency policies. In Currency and Contest in East Asia, William W. Grimes builds on years of primary research and scores of interviews with participants and policy analysts to provide the most accurate, complete, and detailed description available of attempts to build financial cooperation among East Asian countries.

Adapting realist political economy theory to the realities of contemporary global finance, Grimes places regional issues firmly in the wider context of great-power rivalries. He argues that financial regionalism can best be understood as one arena for competition among Japan, the United States, and China. Despite their mutual desire for regional prosperity and economic stability, these three powers have conflicting political interests. Their struggles for regional leadership raise questions about the long-term feasibility...

and detailed description available of attempts to build financial cooperation among East Asian countries. Adapting realist political economy theory to the realities of contemporary global finance, Grimes places regional issues firmly in the wider context of great-power rivalries. He argues that financial regionalism can best be understood as one arena for competition among Japan, the United States, and China. Despite their mutual desire for regional prosperity and economic stability, these three powers have conflicting political interests. Their struggles for regional leadership raise questions about the long-term feasibility of regional financial cooperation, the possible effects of Sino-Japanese rivalry on regional financial stability, and the potential for East Asian financial regionalism to undermine the long-established-albeit waning-global and regional dominance of the United States and the dollar.

Politics of Regionalization - Emilian Kavalski - 2016-05-23
This volume examines the prominent role of China in global politics and the relevance of the 'new regionalism' paradigm to China's international outreach. It provides a comprehensive and critical assessment of China's impact on the global politics of regionalization, offers a novel application of analytical models, investigates the aspects of the Chinese practice of regionalization that set it apart, and demonstrates China's transformative potential in international life. Addressing the need to 're-Orient' the research and policy agenda of international relations, this comprehensive study demonstrates both the lack of language to engage with existing norms and standards and the difficulty of applying them to an evaluation of the global politics of China's 'non-Western' international agency.

Addressing the need to 're-Orient' the research and policy agenda of international relations, this comprehensive study demonstrates both the lack of language to engage with existing norms and standards and the difficulty of applying them to an evaluation of the global politics of China's 'non-Western' international agency.

International Relations Theory and Regional Transformation - T. V. Paul - 2012-02-23
A comprehensive treatment of regional transformation, offering insights from different theoretical perspectives and generating a range of policy-relevant ideas.

The Indonesian Way - Jürgen Rüland - 2017-12-12
On December 31, 2015, the ten-member Association of Southeast Asian Nations (ASEAN) ushered in a new era with the founding of the ASEAN Community (AC). The culmination of 12 years of intensive preparation, the AC was both a historic initiative and an unprecedented step toward the area's regional integration. Political commentators and media outlets, however, greeted its
On December 31, 2015, the ten-member Association of Southeast Asian Nations (ASEAN) ushered in a new era with the founding of the ASEAN Community (AC). The culmination of 12 years of intensive preparation, the AC was both a historic initiative and an unprecedented step toward the area's regional integration. Political commentators and media outlets, however, greeted its establishment with little fanfare. Implicitly and explicitly, they suggested that the AC was only the beginning: Southeast Asia, they seemed to say, was taking its first steps on a linear process of unification that would converge on the model of the European Union.

In The Indonesian Way, Jürgen Rüland challenges this previously unquestioned diffusion of European norms. Focusing on the reception of ASEAN in Indonesia, Rüland traces how foreign policy stakeholders in government, civil society, the legislature, academe, the press, and the business sector have responded to calls for ASEAN's Europeanization, ultimately fusing them with their own distinctly Indonesian form of regionalism. His analysis reframes the nature of ASEAN as well as the discipline of international relations more broadly, writing a narrative of regional integration and norm diffusion that breaks free of Eurocentric thought.

China’s Regional Relations in Comparative Perspective
- Steven F. Jackson -
2018-02-06
China’s relations with its neighbors have evolved since 1949, and in the 21st century many scholars argue that China’s rising power has led it to be increasingly domineering over those smaller countries in Northeast, Southeast, Central, and South Asia. The evolution of China’s regional relations needs to be examined comprehensively, since China counts twenty-seven countries as its "neighbors" large and small. While China’s official policy toward all of these countries is to treat them as "partners," some of these relationships have been spectacularly deteriorating, while others have been quietly improving over the last two decades. Jackson takes a comparative foreign policy approach, and compares China’s status as a regional hegemon with the United States, Russia, India, Brazil, South Africa and Nigeria. The result is a broader theory as to why regional powers are sometimes intimidating and at other times accommodating. An important contribution to studies on China, this book will prove useful to scholars and students in Chinese and Asian foreign policy, comparative foreign policy, and international relations.

Daniel C Bach - 2015-12-22 Africa, which was not long ago discarded as a hopeless and irrelevant region, has become a new 'frontier' for global trade, investment and the conduct of international relations. This book surveys the socio-economic, intellectual and security related dimensions of African regionalisms since the turn of the 20th century. It argues that the continent deserves to be considered as a crucible for conceptualizing and contextualizing the ongoing influence of colonial policies, the emergence of specific integration and security cultures, the spread of cross-border regionalisation processes at the expense of region-building, the interplay between territory, space and trans-state networks, and the intrinsic ambivalence of global frontier narratives. This is emphasized through the identification of distinctive 'threads' of regionalism which, by focusing on genealogies, trajectories and
influence of colonial policies, divide between old and new regionalisms. In doing so, the book opens new perspectives not only on Africa in international relations, but also Africa’s own international relations. This text will be of key interest to students and scholars of African politics, African history, regionalism, comparative regionalism, and more broadly to international political economy, international relations and global and regional governance.

the emergence of specific integration and security cultures, the spread of cross-border regionalisation processes at the expense of region-building, the interplay between territory, space and trans-state networks, and the intrinsic ambivalence of global frontier narratives. This is emphasized through the identification of distinctive 'threads' of regionalism which, by focusing on genealogies, trajectories and ideals, transcend the binary divide between old and new regionalisms. In doing so, the book opens new perspectives not only on Africa in international relations, but also Africa’s own international relations. This text will be of key interest to students and scholars of African politics, African history, regionalism, comparative regionalism, and more broadly to international political economy, international relations and global and regional governance.

Regionalism in Latin America - JOSÉ BRICEÑO-
Thirdly, when looking at systems, there is a particular influence by national and global ones, which condition the form and endurance of regional projects. Finally, beyond systems, the book highlights the relevance of agents as crucial players in the shaping of the resilience of regionalism in Latin America. This insightful collection will appeal to advanced students and researchers in international economics, international relations, international political economy, economic history and Latin American studies.

**Regionalism in Latin America - JOSÉ BRICEÑO-RUIZ - 2020-11-19**

This interdisciplinary edited volume explores the political economy of regionalism in Latin America. It identifies convergent forces which have existed in the region since its very conception and analyses these dynamics in their different historical, geographic and structural contexts. Particular attention is paid to key countries such as Argentina, Brazil and Mexico, as well as subregions like the Southern Cone and Central America. To understand the resilience of regionalism in Latin America, this book proposes to highlight four main issues. Firstly, that resilience is linked to mechanisms of self-enforcement that are part of the accumulation of experiences, institution building and common cultural features described in this book as regionalist acquis. Secondly, the elements and driving forces behind the promotion and expression of the regionalist acquis are influenced and shaped by nested systems in which social processes are inserted.
advanced students and researchers in international economics, international relations, international political economy, economic history and Latin American studies.

**Regionalism in Asia** - See Seng Tan - 2009
Especially since the Cold War, research relating to international relations is Asia has grown exponentially and, to make sense of what is now a vast and unwieldy corpus of literature, this collection from the Critical Issues in Modern Politics series brings together the best and most influential work in the field.
