The Family Track: Keeping Your Faculties While You Mentor, Nurture, Teach, and Serve

- Constance Coiner - 1998

How do the necessities of caring for others deter, benefit, or redefine research and teaching in higher education? What have universities done to recognize the difficulties facing academic parents, single mothers and fathers, graduate students, lesbians and gay couples? What pro-family policies can be enacted during institutional budget crises? At a time when the academy is an ever more demanding and shaper of the lives of those it employs, The Family Track: Keeping Your Faculties While You Mentor, Nurture, Teach, and Serve details the challenges and benefits of balancing a rewarding professional life with the competing needs to nurture children, care for aging parents, and engage in other personal relationships. Here academic women and men explore issues that include biological and tenure cycles, childcare and eldercare, graduate student, and increasing job demands. In telling stories about the quality of their lives, they express their hopes, anxieties, difficulties, and personal strategies for maintaining a delicate but achievable balance.

Keeping Your Career on Track

- Craig Cappellone - 2011-07-28

Managers who achieve significant professional goals don’t often worry about career derailment. But complicity isn’t the same as continued success. Many high-performance executives have one or more blind spots that they ignore as long as they meet their business goals. The traps that lead to derailment can usually be found among five leadership competencies: interpersonal relationships, building and leading a team, getting results, adapting to change, and having a broad functional orientation. Managers who rely on any of these skills at the expense of others or who neglect these skills when promoted from a technical to a managerial role can sabotage their career. Leaders who succeed in adapting to change and continuing it—depend heavily on a manager’s developing and using each of these skills.

- David Nier - 2016-04-29

Career derailment, found at all organizational levels in the workplace, is under-documented. Most books examining how careers go off track deal with abstract concepts and focus only on top executives. This book defines 99 potentially career-ending pitfalls, illustrated with real-world examples, and offers specific advice to employees at all levels in business, nonprofit, military, government and other organizations. Topics include the consequences of power and pleasing, the illusion of immunity, meeting behavior, constructive feedback, ineffective image, nonverbal behavior, self-selling analysis and the perception of management as a science.

Perspectives are provided on avoiding the indirect hazards of working with superiors or subordinates who may be on the path to derailment. A reader self-assessment is included.

Keeping Your Career on Track

- Marilyn Kielbasa - 1996

Is a career as a professor the right choice for you? If you are a graduate student, how can you clear the hurdles successfully and position yourself for academic employment? What's the best way to prepare for a job interview, and how can you maximize your chances of landing a job that suits you? What happens if you don't receive an offer? Does the tenure process work, and how do faculty members cope with the multiple and conflicting day-to-day demands? With a perpetually tight job market, how do prospective candidates navigate the competition and position themselves for success? In telling stories about the quality of their lives, they express their hopes, anxieties, difficulties, and personal strategies for maintaining a delicate but achievable balance.

Writing Groups Inside and Outside the Classroom - Beverly J. Moss - 2014-04-06

This unique collection of essays explores the role of writing groups in the contemporary academic environment. Exploring writing groups as contextual literary events, editors Beverly J. Moss, Nelu P. Highgond, and Melinda Nicklas bring together contributors to document and reflect on the various types of collaborations that occur in writing groups. The collection, a thoughtful examination of the roles of writing groups in the classroom and beyond the classroom, includes: * "What is the impact of gender, race, and socioeconomic class on power dynamics in writing groups?" * When is a writing group a community and are all writing groups communities? * How does the local community of a writing group impact the participation of group members in other local or global communities? * What actions contribute to a strong community of writers and what actions contribute to the breakdown of the community? * What is it about being a member of a community of writers that creates writing groups appealing to so many writers both within and beyond the academy? Each chapter highlights how writing groups, whether or not they are labeled as such, function in various spaces and locations, and how collaboration works when writers from a variety of backgrounds with diverse interests come together. Writing Groups Inside and Outside the Classroom illustrates that writing groups outside of the academy are worthy of study and serve as important sites of writing and literacy instruction. Offering significant insights into the roles of writing groups in literary and writing practice, this volume is appropriate for scholars and teachers of writing, rhetoric, composition, and literacy; for writing center administrators and staff; and for writing group participants.

Dr. Ruth Peters shares her best and newest advice for helping families restore order and keep the peace, proven methods that once and for all will get your children to
Understand and do what you ask. This book is for everyone who wants it done—without whining & nagging! Delaney has gotten under my skin and she knows it. Even before I took her hostage, she'd somehow managed to work her way into my blood, and my heart hammers harder in my chest every time she stares daggers in my direction. She's craving someone like me in her life, whether she knows it or not, and with every bratty outburst, a part of me calls out to discipline her. She needs to be taught a lesson. And I will mean her, all she promised to reason her for, but once I have a taste of her sweet curves, I'm keeping her to myself. She's the Hittman's hostage and she'll learn to love it. No CliffsHangers. Safe from cheating. Explicit language & sex.

The Memory Bible - Gary Small - 2021-06-15
Clear, concise, prescriptive steps for improving memory loss and keeping the brain young—from one of the world's top memory experts. Everybody forgets things sometimes—from your keys to your lunch date to the name of an acquaintance. According to Dr. Gary Small, the director of the UCLA Center on Aging, much of this forgetfulness can be eliminated easily through his innovative memory exercises and brain fitness program—now available for the first time in a book. Using Small's recent scientific discoveries, The Memory Bible can immediately improve your mental performance. One of the ten commandments that Dr. Small has pioneered to improve your memory immediately is LOOK, SNAP, CONNECT: 1. LOOK: actively observe what you want to learn; 2. SNAP: create a vivid snapshot and memorable images; 3. CONNECT: visualize a link to associate images in addition. Dr. Small's comprehensive program includes a "brain diet" of memory-enhancing foods and a list of the most effective drugs, as well as a workbook with a weekly and daily calendar. Remember, as Dr. Small says, "Great memories are not born, they are made."
