The remanouncement of values during the 1980s led to a conflict between the old and the new. The new Russian culture, rooted in the post-Soviet period, experienced rapid growth and evolution. The new cultural environment, characterized by the influence of Western cultural ideas, highlighted the difference between Russian culture and the culture of the West. The new Russian culture, with its emphasis on individualism, highlighted the difference between Russian culture and the culture of the West.

The new Russian culture, with its emphasis on individualism, highlighted the difference between Russian culture and the culture of the West. The new Russian culture, with its emphasis on individualism, highlighted the difference between Russian culture and the culture of the West.

Restructuring Post-Communist Russia - Tibor Breider - 1989-01-01

Since the fall of the Soviet Union in 1991, the question of whether the Soviet Union can provide the necessary momentum for the transition to a market economy has been a central concern for policymakers. This book offers an in-depth analysis of the economic, political, and social challenges that arise from the transition to a market economy. Based on a detailed examination of the Russian economy and society, the book provides insights into the factors that contribute to the success or failure of the transition process.

The deterioration of soviet facilities and services is a major concern for policymakers. The book offers a comprehensive analysis of the factors that contribute to the deterioration of these facilities and services, including the role of the state, the role of the market, and the role of civil society. Based on a detailed examination of these factors, the book offers insights into the strategies that can be employed to address the problem of deterioration.

Gorbachev, new political institutions have emerged that now require election of political leaders and rule by constitutional procedures. Michael McFaul traces Russia's tumultuous political history from Gorbachev's rise to power in 1985 through

For centuries, dictators ruled Russia. Tsars and Communist Party chiefs were in charge for so long some analysts claimed Russians had a cultural predisposition for authoritarian leaders. Yet, as a result of reforms initiated by Mikhail

The turn of 1990-1991 inaugurated a period of political liberalization and further democratization that lasted until the 1993 Russian constitutional crisis. Hence, this book is unique in that it examines the political history of post-communist Russia in its entirety, from the 1980s to the present day.

Russia's Unfinished Revolution - Michael McFaul - 2017-03-13

Russia's Unfinished Revolution is a comprehensive history of Russia since the collapse of the Soviet Union, offering a detailed account of the country's political, economic, and social transformations. The book explores the challenges that Russia has faced in its transition to a market economy, including the role of the state, the role of the market, and the role of civil society. Based on a detailed examination of these factors, the book offers insights into the strategies that can be employed to address the problem of deterioration.
