A Cape Breton in the Thought-Control Centre of Canada: Ray Smith - 2006-10-15

First published in 1969, Ray Smith's A Cape Breton in the Thought-Control Centre of Canada remains as refreshing, innovative and important today as it has in previous incarnations. Instructive, playful, crafted, sly, self-referential and extremely funny, it marks the beginning of a long and important, if insufficiently under-appreciated, career by one of Canada's best humorists and innovative story-tellers. "Like the work of an Academic fishing village, to wives and daughters in the coal mining culture, to the conversations of local quirks, the island impregnates women as they craft their art, stories, work and communities. This collection contributes the hard work and achievements of women on this island - an island that continues to shape, inspire and test its people."
