Aurora - Wikipedia
An aurora (plural: auroras or aurorae), also known as the polar lights or aurora polaris, is a natural light display in Earth's sky, predominantly seen in high-latitude regions (around the Arctic and Antarctic). Auroras display dynamic patterns of brilliant lights that appear as curtains, rays, spirals, or dynamic flickers covering the entire sky. Auroras are the result of disturbances in the outer atmosphere. The aurora australis is the southern hemisphere counterpart to the aurora borealis. Live aurora borealis images and videos.
