James McCauley seeks to answer in The 7th Day, The Final Act of Creation, The - James Madison McCauley III - 2016-10-06
"Remember the Sabbath day to keep it holy" (Exodus 20:8). But what does that really mean? Why is Sunday worship more prevalent in Christianity today? What makes the Sabbath so special anyway? These are the kind of questions James McCauley seeks to answer in The 7th Day, The Final Act of Creation. The Sabbath is often problematic for new and even lifelong members of the Seventh-day Adventist faith. McCauley dives deep into this topic and explains it from every angle. Masterfully addressing every controversy around it, McCauley aims to show the Sabbath’s relevance in the world today. Beginning with its history, nothing could be more fundamental to appreciating the Sabbath than understanding why it came into existence in the first place. Moving on to establish that it has a place in both the Old and New Testaments, McCauley makes clear that the Sabbath, unlike its Sunday counterpart, holds special blessings for those who keep it. The 7th Day helps one understand not only the Sabbath’s scriptural foundation but also its beauty and the life-giving peace it provides.

The definitive account of the historic diplomatic agreement that provided a blueprint for ending the Cold War The Helsinki Final Act was a watershed of the Cold War. Signed by thirty-five European and North American leaders at a summit in Finland in the summer of 1975, the document presented a vision for peace based on common principles and cooperation across the Iron Curtain. The Final Act is the first in-depth history of the diplomatic saga that produced this important agreement. This gripping book explains the Final Act's emergence from the parallel crises of the Soviet bloc and the West during the 1960s and the conflicting strategies that animated the negotiations. Drawing on research in eight countries and multiple languages, The Final Act shows how Helsinki provided a blueprint for ending the Cold War and building a new international order.

Introduction to Catholicism for Adults is a book that sets out the basics of why we are here and where we are going. Every baptized person has been called personally to serve God and love his neighbor. The goal of our lives is personal sanctity, and the destination is Heaven. Jesus established his Church to map out the way for everyone, and he left his Holy Spirit to guarantee that the Church will not fail in that role. This book is a part of your journey on the road to sanctity. Seek to understand its message so that you will be able to complete the journey in the way Jesus desires in the time he has given you. It is said that the human soul loves adventure, and your life will indeed present many opportunities for adventure. Remember why you are here, what the great goal is, and take as your motto, “Sanctity will be my most important adventure.”

Creation! How we are here. Not just us, of course, but bluetits and Hereford cattle and cabbages and E. coli and deserts and mountains and suns and nebulae ... in fact, all that is. So not only “Why are we here?” but “Why is there a ‘here’ for us to inhabit?” . That is this book’s theme. Inevitably it doesn’t answer the question in a mechanistic sense. A telescope cannot look at itself, and neither can an inhabitant of the Universe say how it came to be. But that does not stop those questions haunting us. So where shall we turn? To cosmology? The concept of an initial event, a “Big Bang”, is now almost universally accepted. But what caused that? Most would feel that this is not a question science can answer.

The first two contributors to this book are professional cosmologists, yet cosmology is only a background for this book, not its core theme. That theme is the conviction that the Universe owes its existence to a divine Creator – and the specific formulations of this conviction in the three great monotheistic religions, the “Abrahamic” faiths. The scriptures of all three faiths include the creation-accounts in the first two chapters of Genesis. Later developments moved the expressions of the three faiths considerably apart, but the social and political conditions of the 21st C world make it imperative that every effort should be put into a recovery of understanding between their practitioners. The purpose of this book is to contribute to that understanding. Of thirteen chapters, two are by Jewish authors and three by Moslems; several of the Christian authors also are deeply versed in the other traditions. Together, the chapters show that the attitudes of the three faiths to Creation have far more in common than otherwise. In particular, they are noticeably and encouragingly coming together in their endorsements of 21st C concerns for the environment. The book derives from a conference of the Science and Religion Forum in Sept 2006, but all chapters have been rewritten for publication, and carefully edited with linking commentaries.

**Last Acts** - Maggie Vinter - 2019-05-07

Last Acts argues that the Elizabethan and Jacobean theater offered playwrights, actors, and audiences important opportunities to practice arts of dying. Psychoanalytic and new historicist scholars have exhaustively documented the methods that early modern dramatic texts and performances use to memorialize the dead, at times even asserting that theater itself constitutes a form of mourning. But early modern plays also engage with devotional traditions that understand death less as an occasion for suffering or grief than as an action to be performed, well or badly. Active deaths belie narratives of helplessness and loss through which mortality is too often read and instead suggest how marginalized and constrained subjects might participate in the political, social, and economic management of life. Some early modern strategies for dying resonate with descriptions of politcized biological life in the recent work of Giorgio Agamben and Roberto Esposito, or with ecclesiastical forms. Yet the art of dying is not solely a discipline imposed upon recalcitrant subjects. Since it offers suffering individuals a way to enact their deaths on their own terms, it discloses both political and dramatic action in their most minimal manifestations. Rather than mournfully marking what we cannot recover, the practice of dying reveals what we can do, even in death. By analyzing representations of dying in plays by Marlowe, Shakespeare, and Jonson, alongside devotional texts and contemporary biopolitical theory, Last Acts shows how theater reflects, enables, and contests the politicization of life and death.

How God Acts - Denis Edwards - 2010-01-27

From providence and miracles to resurrection and intercessory prayer, Edwards shows how a basically noninterventionist model of divine action does justice to the universe as we know and also to central convictions of Christian faith about the goodness of God, the promises of God, and the fulfillment of creation. Here is wonderfully lucid theology supporting an excitement of how God is at work in the universe.
