Gardens and Ghettos - Jewish Museum (New York, N.Y.) - 1989-01-01

Jews arrived in the Republic of Rome some time in the second or first century B.C.E. They soon formed their own community which absorbed Roman cultural forms but was able to maintain its identity and integrity. For more than twenty centuries, the Italian peninsula has been home to the heirs of this ancient minority community, whose culture is a blend of traditional Jewish content with Roman, then Italian cultural forms. Gardens and Ghettos: The Art of Jewish Life in Italy is the title of an exhibition curated by Vivian B. Mann and Emily Braun for The Jewish Museum, New York (September 1989-January 1990), an exhibition that explores the extraordinarily rich artistic legacy of Italian Jewry. This book, like the exhibition itself, focuses on four time periods: the Empire, the Era of the City States (1300-1550), the Era of the Ghettos (1550-1750), and the period since the Risorgimento. Artifacts and architecture are generously represented along with fine arts. Essays by prominent scholars introduce us to the historical and cultural context of a splendid array of works, from ancient Roman architectural fragments and gold glass to illuminated manuscripts and printed books from the Renaissance, baroque ceremonial textiles and silver, and paintings, graphics, and sculpture of the modern era. The many illustrations illuminate the art and life of a minority community in dynamic tension with dominant society and show the vibrant, ongoing contribution by Jews to the arts of Italy. The World of a Renaissance Jew - David B. Ruderman - 1981-12-31
Within the Italian city states of the fifteenth and sixteenth centuries, a relatively high degree of mutual tolerance and tranquility existed between the enlightened Christian majority and the small Jewish minority. With the prevalence of favorable political, social, and economic circumstances for Jewish life number of Jews participated freely in Renaissance culture while upholding an intense awareness of their own particular identity. This work is a study of the life and thought of one such Jew, Abraham b. Mordecai Farissol (1452-ca. 1528). While born in Avignon, Farissol spent most of his life in Italy close to the cultural centers of Renaissance society, primarily in Ferrara, but also in Mantua, Florence, and other Italian cities. As scribe, educator, cantor, communal leader, polemicist, Biblical exegete, and geographer, Farissol developed variegated interests and associations which provide exciting vantage points from which to view his cultural and social world. As one of the first comprehensive studies of any Italian Jewish figure of the period, this book represents an important contribution to an understanding of Jewish society and culture. But the significance of this study of Farissol's life extends beyond what can be learned about the man and his immediate
Utilizing the life and thought of one person, it explores and explicates the dialogue between Judaism and the culture of the Italian Renaissance. Despite its intrinsic interest, Jewish intellectual history in the Renaissance has remained an underdeveloped field. Many sources still remain unexamined; monographs on specific themes and figures have yet to be written. David Ruderman's study breaks new ground by making use of extensive, yet previously unpublished sources on Farissol and his society and by integrating them into the broader context of Jewish and Renaissance culture. The work is of particular interest to historians of the Jews and of Renaissance Italy. It also offers the general reader an excellent case study of the symbiotic relationship between Western culture and its Jewish minority in one of the most fertile periods of European civilization. In dramatic fashion it illustrates how Jews not only survived but creatively flourished in a pluralistic setting by appropriating from the outside new forms and ideas which they integrated into their own vital cultural experience.

Rituals of Childhood - Ivan G. Marcus - 2015-05-01
In medieval times, when a Jewish boy of five began religious schooling, he was carried from home to a teacher and placed on the teacher's lap. He was then asked to recite the Hebrew alphabet and lick honey from the slate on which it was written, to eat magically inscribed cooked peeled eggs and cakes, to recite an incantation against a demon of forgetfulness, and then to go down to the riverbank with the teacher, where he was told that his future study of the Torah, like the rushing river, would never end. This book--Ivan Marcus's erudite and novel interpretation of this rite of passage--presents a new anthropological historical approach to Jewish culture and acculturation in medieval Christian Europe.
Marcus traces ancient Jewish and Greco-Roman elements in the rite and then analyzes it from different perspectives, making use of narrative, legal, poetic, ethnographic, and pictorial sources, as well as firsthand accounts. He then describes contemporary medieval Christian images and initiation rites—including the eucharist and the Madonna and child—as contexts within which to understand the ceremony. He is the first to investigate how medieval Jews were aware of, drew upon, and polemically transformed Christian religious symbols into Jewish counterimages in order to affirm the truth of Judaism and to make sense of living as Jews in an intensely Christian culture.

**Judeo-Spanish and the Making of a Community**
- Bryan Kirschen - 2015-09-04
Judeo-Spanish and the Making of a Community brings together scholars and activists from around the world, all of whom have original research at the annual uclADINO Judeo-Spanish Symposia. This collection addresses a number of linguistic, historical, and cultural matters pertinent to the Sephardim in different lands from the fifteenth century to the present day. Essays in this volume reveal how Sephardim from various parts of the world – Turkey, the Balkans, Morocco, and the United States – culturally and linguistically position themselves among each other, among other Jews, and among their non-Jewish co-regionalists. Contributors explore how the rich history of the Sephardim has allowed for the development, maintenance, endangerment, and even revitalization of the Judeo-Spanish language(s).

The Birth of the Codex - Colin H. Roberts - 1987-09-10
In The Codex, published in 1954, C.H. Roberts studied the process by which in the early centuries of our era the roll as the vehicle for literature was replaced by the codex, which has remained the format of the book ever since. New evidence that has accumulated in the last thirty years has set some of the problems in a new light and in this book, published here for the first time in paperback, the authors re-examine these and offer a different explanation for the remarkable part in the transformation played by the early Church.

Jewish Thought and the Scientific Revolution of the Sixteenth Century - André Neher - 1986
This is the first comprehensive study of David Gans of Renaissance Prague, the little studied pioneer of Jewish historiography and astronomy. The book describes Gans' outstanding work in geography and history and his attempt to reconcile the system of Copernicus with his own role as an assistant to Tycho Brahe. This biography not only sets Gans in his Jewish intellectual and religious context but it also links him to the great spiritual revolutions of the 16th century.

This book--which won the 2000 DRUM Magazine Readers' Poll for "Best Instructional Book"--is a complete, step-by-step course on conga drumming. It's the book we looked for but couldn't find when we were first learning to drum. We did everything we could to make it user-friendly, so even non-musicians could understand it. The book teaches families of drum parts for several authentic Afro-Caribbean rhythms, including rumba, bomba, calypso, conga, and bembe. The instruction is clear and step-by-step, and the writing creates the intimate feel of private lessons. The charts are big and easy to read. **Musical Exodus** - Ruth F. Davis - 2015-09-17
The essays in Musical Exodus: Al-Andalus and its Jewish Diasporas extend beyond the music of medieval Iberia and its Mediterranean Jewish diasporas to wider aspects of Jewish-Christian and Jewish-Muslim relations. The authors offer new perspectives on theories of musical interaction, hybridization, and the cultural meaning of musical expression in diasporic and minority communities. The essays address how music is implicated in constructions of ethnicity and nationhood and of myth and history, while also examining the resurgence of Al-Andalus as a symbol in musical projects that claim to promote cross-cultural understanding and peace. The diverse scholarship in Musical Exodus makes a vital contribution to scholars of music and European and Jewish history.

The collapse of the Ottoman Empire and the city's incorporation into Greece in 1912 provoked a major upheaval that compelled Salonica's Jews to reimagine their community and status as citizens of a nation-state. Sephardic Jewish community traveled the globe, from New York to Salonica, Jerusalem, and Moscow, to excavate archives once confiscated by the Nazis. Written in Ladino, Greek, French, and Hebrew, these archives, combined with local newspapers, reveal how Salonica's Jews fashioned a new hybrid identity as Hellenic Jews during a period marked by rising nationalism and economic crisis as well as unprecedented Jewish cultural and political vibrancy. Salonica's Jews – Zionists, assimilationists, and socialists – reinvigorated their connection to the city and claimed it as their own until the Holocaust. Through the case of Salonica's Jews, Naar recovers the diverse experiences of a lost religious, linguistic, and national minority at the crossroads of Europe and the Middle East.

**Gender in Judaism and Islam** - Firoozeh Kashani-Sabet - 2014-12-05

Jewish and Islamic histories have long been interrelated. Both traditions emerged from ancient cultures born in the Middle East and both are rooted in texts and traditions that have often excluded women. At the same time, both groups have recently seen a resurgence in religious orthodoxy among women, as well as growing feminist movements that challenge traditional religious structures. In the United States, Jews and Muslims operate as minority cultures, carving out a place for religious and ethnic distinctiveness. The time is ripe for a volume that explores the relationship
Gender in Judaism and Islam brings together scholars working in the fields of Judaism and Islam to address a diverse range of topics, including gendered readings of texts, legal issues in marriage and divorce, ritual practices, and women's literary expressions and historical experiences, along with feminist influences within the Muslim and Jewish communities and issues affecting Jewish and Muslim women in contemporary society. Carefully crafted, including section introductions by the editors to highlight big picture insights offered by the contributors, the volume focuses attention on the theoretical innovations that gender scholarship has brought to the study of Muslim and Jewish experiences. At a time when Judaism and Islam are often discussed as though they were inherently at odds, this book offers a much-needed reconsideration of the connections and commonalities between these two traditions. It offers new insights into each of these cultures and invites comparative perspectives that deepen our understanding of both Islam and Judaism.

**Double Diaspora in Sephardic Literature**
David A. Wacks - 2015-05-11
The year 1492 has long divided the study of Sephardic culture into two distinct periods, before and after the expulsion of Jews from Spain. David A. Wacks examines the works of Sephardic writers from the 13th to the 16th centuries and shows that this literature was shaped by two interwoven experiences of diaspora: first from the Biblical homeland Zion and later from the ancestral hostland, Sefarad. Jewish in Spain and Spanish abroad, these writers negotiated Jewish, Spanish, and diasporic idioms to produce a uniquely Sephardic perspective. Wacks brings Diaspora Studies into dialogue with medieval and early modern Sephardic literature for the first time.
