practical advice guide for people with autism who have been sentenced to time in prison. Will shares his first-hand knowledge of what to expect and how to behave within the penal system. He sheds light on topics that are important for people with autism who have been incarcerated, such as dealing with the first few months in prison, navigating the attending the needs of children with special needs, responding to the psychological and social challenges of prison life, and finding the balance between living for the future and coping with the present.

This book provides insight into what prison life is really like. It offers a unique perspective that will be of interest to anyone who is facing a prison sentence or who is in contact with someone who is in prison. It will also be of interest to professionals who work with people with autism and who want to understand how to best support them in their journey through the prison system.

The number of people incarcerated across the United States reached two million in 2002. That number has increased since then, and the U.S. holds the highest incarceration rate in the world — one out of every 100 Americans are in prison. The Federal Bureau of Prisons (BOP) has implemented a number of programs and initiatives in an effort to reduce recidivism and improve the reintegration of inmates back into society. Despite these efforts, many people who have been incarcerated continue to struggle with addiction, mental illness, unemployment, and other issues that contributed to their initial offense.

The Palgrave Handbook of Prisons and the Family is a comprehensive and accessible reference work that brings together the latest research and thinking on prisoners’ families. It covers a wide range of topics, including the experiences of prisoners’ families in different countries and across different historical periods, the impact of imprisonment on family relationships, and the implications of imprisonment for the education, health, and well-being of children.

This handbook brings together the contributions of major experts in the field, providing a comprehensive overview of the latest research and thinking on prisoners’ families. It is an essential resource for scholars, practitioners, and policymakers who are interested in understanding the impact of imprisonment on families and the ways in which families can support their loved ones during and after incarceration.

Life Imprisonment: Alan Baker - 2013

Winner of a Koestler Trust Silver Award and the only book of its kind by a serving lifer. Contains a Foreword by Tim Newell, former Prison Governor life-sentence expert. A snapshot of the most severe sentence available in the UK which treat key topics in 40 easy to read sections. Alan Baker’s personal selection and treatment of topics of concern to life-sentenced prisoners looks at subjects across the life-sentence regime. Ranging from the realisation which ‘kicks in’ after life-sentenced prisoners, whether about their sentence, chances, their situation or the (often greatly magnified) minutiae of prison life. Review: ‘A hard hitting set of survival notes from someone writing with great experience of having walked the walk. It is grounded in reality Alan Baker writes with sound practical advice and insight which is not for the feint-hearted. He takes prison seriously, recognising it as the place you don’t want to be’ Tim Newell (From the Foreword).

Prisons and the Voluntary Sector: Shane Bryans - 2002

The book that launched the UK Prison Service initiative to involve the voluntary sector in the running of its prisons. Outlines details which will enable both parties to understand what is involved, the history of voluntary work in prisons - which dates back several hundred years - and how to set about devising a scheme or promoting an idea.

Life Imprisonment - Alan Baker - 2013

There are books that teach you how to help yourself, amidst the chaos of stress, family demands, relationship problems, job and work-related setbacks and coping mechanisms and staying out of trouble. It tells about how a life sentence leads to risk assessments, courses, reports, psychological tests and possibly a period in a therapeutic community and a resettlement prison. To this first hand knowledge, Alan Baker talks his thoughts on the state of the prisons, having experienced first-hand the impact that the justice system has on someone serving a sentence with no end date. The result is a book packed with useful information as well as insider's perspectives on the major concerns of life-sentenced prisoners, whether about their sentence, chances, their situation or the (often greatly magnified) minutiae of prison life.
