Fascism, Totalitarianism and Political Religion - Bryce Gillett - 2013-08-13

This is an extensive and detailed examination of the interrelationship between political religion and totalitarianism. The author argues that both fascism and totalitarianism are forms of political religion, and that they share a common ideological foundation. The book explores the religious elements of fascism and totalitarianism, and the ways in which they were used to justify and legitimize political violence. The author argues that the relationship between political religion and totalitarianism is complex and nuanced, and that it is important to understand the specific historical and cultural contexts in which these ideologies emerged.

The Oxford Handbook of Philanthropy - Clayman, 2016-04-14

This handbook provides a comprehensive overview of the field of philanthropy, including its history, theory, and practice. It is divided into three parts: Part I covers the history and development of philanthropy, from ancient times to the present day. Part II examines the theoretical frameworks and concepts that underlie philanthropy, including its role in society and its relationship to other forms of charitable giving. Part III focuses on the practice of philanthropy, including the strategies and tactics used by philanthropists and foundations.

The Itsuki Mandala - Fumio, 2016-08-10

This book is a study of the Itsuki Mandala, a Japanese religious text that has been influential in the development of modern Japanese religious thought. The author argues that the Itsuki Mandala is a key text in understanding the relationship between religion and politics in Japan, and that it is important to consider its historical and cultural context in order to fully appreciate its significance.

The Oxford Handbook of Religion and Society - Patrini, 2016-05-15

This handbook provides a comprehensive overview of the field of religion and society, including its history, theory, and practice. It is divided into three parts: Part I covers the history and development of religion and society, from ancient times to the present day. Part II examines the theoretical frameworks and concepts that underlie the relationship between religion and society, including its role in shaping political, economic, and social structures. Part III focuses on the practice of religion and society, including the ways in which religion is used to shape political, economic, and social policies.

The Oxford Handbook of Political Science - Evenett, 2015-04-02

This handbook provides a comprehensive overview of the field of political science, including its history, theory, and practice. It is divided into three parts: Part I covers the history and development of political science, from ancient times to the present day. Part II examines the theoretical frameworks and concepts that underlie political science, including its role in shaping political, economic, and social policies. Part III focuses on the practice of political science, including the ways in which political science is used to shape political, economic, and social policies.

The Politics of Religion - Robertson, 2015-04-20

This book explores the relationship between religion and politics, and argues that religion is a key factor in shaping political discourse and decision-making. The author argues that the relationship between religion and politics is complex and nuanced, and that it is important to consider the specific historical and cultural contexts in which these relationships emerge.
