The End of Communism and the Fall of the Berlin Wall - Robert C. Smith - 1990

This book is an examination of the political and social changes that occurred in Eastern Europe and the Soviet Union after the fall of the Berlin Wall. It explores the ways in which the collapse of communism was shaped by economic and political factors.

The Rise of the Chinese Communist Party - 1990

This book is an examination of the development of the Chinese Communist Party and its role in the rise of China. It explores the ways in which the party was able to mobilize support and establish itself as a dominant political force in China.

The New World - 1984

This book is an examination of the ways in which the New World was shaped by the initial contact between European and American societies. It examines the ways in which the encounter between the two peoples had a lasting impact on the course of history.
In this comprehensive and original study, a distinguished specialist and scholar of African affairs argues that the current crisis in African development can be traced directly to European colonial rule, which left the continent with a "singularly difficult legacy" that is unique in modern history. Crawford Young proposes a new theoretical framework to help readers access and understand the reasons for co-operative success in the Asia Pacific region, and their enabling factors of the role of the state, the market potential for scale-up, the mitigation of socio-economic and political risks, and the international role of these cooperatives. The book provides insights into successful co-operative systems across the Asia Pacific and reviews the historical framework of colonialism, including issues pertaining to multiculturalism, political, and economic and international factors. Making the Asia Pacific-Cooperative Potential grants early-career researchers and graduate students with a systematic review of cooperatives in the Asia Pacific. Highlighting case studies across various countries, the book outlines the benefits of cooperatives, including issues pertaining to economic development and political, and economic and international factors. Making the Asia Pacific-Cooperative Potential grants early-career researchers and graduate students with a systematic review of cooperatives in the Asia Pacific.
