The Housekeeping, Vogue, Refinery29, and Buzzfeed Ann Patchett, the #1 New York Times bestselling author of Commonwealth, delivers her most powerful novel to date: a richly moving story that explores the indelible bond between two siblings, the house where they were raised, and the family who built it.

In 1986, the year of the Worst Gun Battle in the history of the city, a rich man's children are exiled from the house where they grew up by their stepmother. The two wealthy siblings are thrown back into the poverty their parents had escaped from and find that all they have to count on is one another. It is this unshakeable bond between them that both saves their lives and threatens their future. Set over the course of five decades, The Dutch House is a dark fairy tale about two smart people who cannot overcome their past. Despite every outward sign of success, Danny and Maeve are only truly comfortable when they're together. Throughout their lives they return to the well-worn story of what they've lost with humor and rage. But when at last they're forced to confront the people who left them behind, the relationship between an indulged brother and his ever-protective sister is finally tested.

The Tulip Festivals in Orange, Iowa and Holland, Michigan and that there are even towns where smut (traditional Dutch pea soup) is on the menu? For each town you will not only discover a recipe for the home cooked haring but also mysterious favours from times gone by. But also, current American favourites with a "touch of Dutch"...From Holland with love, Ingo

The Vaccinators - Ann Janetta - 2007-05-23

In Japan, at the end of the mid-nineteenth century, smallpox claimed the lives of an estimated twenty percent of all children—most of them before the age of five. When the apathetic Tokugawa shogunate failed to respond, Japanese physicians, learned in Western medicine and medical technology, became the primary disseminators of Jennerian vaccination—a new medical technology to prevent smallpox. Tracing its origins from rural England, Janetta investigates the transmission of Jennerian vaccination to and throughout pre-Meiji Japan. Relying on Dutch, Japanese, Russian, and English sources, the book traces Japanese physicians as leading agents of social and institutional change, showing how they used traditional strategies involving scholarship, marriage, and adoption to forge new local, national, and international networks in the first half of the nineteenth century. The Vaccinators details the apocalyptic effect of Japan's almost 300-year isolation and examines in depth a nation on the cusp of political and social upheaval.

The book provides evidence of the crisis and explores its causes and consequences. Eventually, "The Crisis of Connection" suggests possible solutions to the state of disconnection that the world has found itself in, encouraging the readers to pursue common humanity.——

Night Train - A. L. Snijders - 2021-10-05

Brevis is the beauty of soul in these tiny masterworks of short story fiction poignantly translated by Lydia Davis, the miniature stories of A. L. Snijders might concern a lost love, a visit with a bad, fears of travel, a dream of a man who has lost his glass eye unifying them in their concision and their vividness. Lydia Davis in her introduction delves into her fascination with the pleasures and challenges of translating from a language relatively new to her. She also enlist Snijders’s “straightforward approach to storytelling, his modesty and his thoughtfulness.” Selected from many hundreds in the original Dutch, the stories gathered here—humorous, or bizarre, or confronting reality—are something like Dutch entry, essays-in-brief, philosophical meditations, or events recreated from life,—inhabiting the borderland between fiction and reality—might best be described as autobiographical mini-fables. This morning at 11:30, in the full sun, I go up into the hayloft where I haven’t been for years. I climb over tons and shushing, and open the door. A brightened owl flies straight at me, dead quiet, as quiet as a shadow can fly, I look into his eyes—he’s a large owl, it’s not strange that I’m frightened too, we frighten each other. I myself thought that owls never move in the daytime. What the owl thinks about me, I don’t know.
