The Book of V. - Anna Solomon - 2020-05-05
A GOOD MORNING AMERICA BOOK CLUB PICK A BELLETRIST BOOK CLUB PICK For fans of The Hours and Fates and Furies, a bold, kaleidoscopic novel intertwining the lives of three women across three centuries as their stories of sex, power, and desire finally converge in the present day. Lily is a mother and a daughter. And a second wife. And a writer, maybe? Or she was going to be, before she had children. Now, in her rented Brooklyn apartment she’s grappling with her sexual and intellectual desires, while also trying to manage her roles as a mother and a wife in 2016. Vivian Barr seems to be the perfect political wife, dedicated to helping her charismatic and ambitious husband find success in Watergate-era Washington D.C. But one night he demands a humiliating favor, and her refusal to obey changes the course of her life—along with the lives of others. Esther is a fiercely independent young woman in ancient Persia, where she and her uncle’s tribe live a tenuous existence outside the palace walls. When an innocent mistake results in devastating consequences for her people, she is offered up as a sacrifice to please the King, in the hopes that she will save them all. In Anna Solomon’s The Book of V., these three characters’ riveting stories overlap and ultimately collide, illuminating how women’s lives have and have not changed over thousands of years.

Somewhere in the Unknown World - Kao Kalia Yang - 2020-11-10
From “an exceptional storyteller,” Somewhere in the Unknown World is a collection of powerful stories of refugees who have found new lives in Minnesota’s Twin Cities, told by the award-winning author of The Latehomecomer and The Song Poet. All over this country, there are refugees. But beyond the headlines, few know who they are, how they live, or what they have lost. Although Minnesota is not known for its diversity, the state has welcomed more refugees per capita than any other, from Syria to Bosnia, Thailand to Liberia. Now, with nativism on the rise, Kao Kalia Yang—herself a Hmong refugee—has gathered stories of the stateless who today call the Twin Cities home. Here are people who found the strength and courage to rebuild after leaving all they hold dear. Awo and her mother, who escaped from Somalia, reunite with her father on the phone every Saturday, across the span of continents and decades. Tommy, born in Minneapolis to refugees from Cambodia, cannot escape the war that his parents carry inside. As Afghani flees the reach of the Taliban, he seeks at every stop what he calls a certificate of his humanity. Mr. Truong brings pho from Vietnam to Frogtown in St. Paul, reviving a crumbling block as well as his own family. In Yang’s exquisite, necessary telling, these fourteen stories for refugee journeys restore history and humanity to America’s strangers and redeem its long tradition of welcome.
A New York Times Book Review Editors’ Choice The fascinating, forgotten story of the 1970s attempt to build a city dedicated to racial equality in the heart of “Klan Country”. In 1969, with America’s cities in turmoil and racial tensions high, civil rights leader Floyd McKissick announced an audacious plan: he would build a new city in rural North Carolina, open to all but intended primarily to benefit Black people. Named Soul City, the community secured funding from the Nixon administration, planning help from Harvard and the University of North Carolina, and endorsements from the New York Times and the Today show. Before long, the brand-new settlement – built on a former slave plantation – had roads, houses, a health care center, and an industrial plant. By the year 2000, projections said, Soul City would have fifty thousand residents. But the utopian vision was not to be. The race-baiting Jesse Helms, newly elected as senator from North Carolina, swore to stop government spending on the project. Meanwhile, the liberal Raleigh News & Observer mistakenly claimed fraud and corruption in the construction effort. Battered from the left and the right, Soul City was shut down after just a decade. Today, it is a forgotten saga of race, capitalism, and the struggle for equality. Was it an impossible dream from the beginning? Or a brilliant idea thwarted by prejudice and ignorance? And how might America be different today if Soul City had been allowed to succeed?

How to be a Global Citizen - John Gaventa - 2010-04-08

How does citizen activism win changes in national policy? Which factors help to make myriad efforts by diverse actors add up to reform? What is needed to overcome setbacks, and to consolidate the smaller victories? These questions need answers. Aid agencies have invested heavily in supporting civil society organizations as change agents in dudes and established democracies alike. Evidence gathered by donors, NGOs and academics demonstrates how advocacy and campaigning can reconfigure power relations and transform governance structures at the local and global levels. In the rush to go global or stay local, however, the national policy sphere was recently neglected. Today, there is growing recognition of the key role of champions of change inside national governments, and the potential of their engagement with citizen activists outside. These advances demand a better understanding of how national and local actors can combine approaches to simultaneously work the levers of change, and how their successes relate to actors and institutions at the international level. This book brings together eight studies of successful cases of citizen activism for national policy changes in South Africa, Morocco, Brazil, Chile, Mexico, Turkey, India and the Philippines. They detail the dynamics and strategies that have led to the introduction, change or effective implementation of policies responding to a range of rights deficits. Drawing on influential social science theory about how political and social change occurs, the book brings new empirical insights to bear on it, both challenging and enriching current understandings.

**Global Citizens** - Marjorie Mayo - 2005-02

The dawn of the twenty first century has been accompanied by an upsurge of anti-capitalist campaigning challenging the very basis of the New World Economic order. This book sets out to explore the lessons from these experiences of social mobilization. How can non-governmental organizations, community based organizations and the labor and trade union movement develop effective campaigning alliances—without becoming institutionalized and incorporated themselves? How can they balance immediate gains and longer term strategies for transformation? How can they gain media attention without losing control of the message? And how can social movements develop organizational forms that are genuinely representative and democratically accountable, globally? Mayo explores these questions through case studies, and concludes with lessons for building global challenges to neo-liberal agendas and developing more transformative approaches.

Globalization and Global Citizenship - Irene Langran - 2016-06-10
Globalization and Global Citizenship examines the meaning and realities of global citizenship as a manifestation of recent trends in globalization. In an interdisciplinary approach, the chapters outline and analyse the most significant dimensions of global citizenship, including transnational, historical, and cultural variations in its practice; foreign and domestic policy influences; and its impact on personal identities. The contributions ask and explore questions that are of immediate relevance for today’s scholars, including: How does globalization in its current form present a new set of challenges for states, non-state actors, and individual citizens? How has globalization diminished, expanded, or complicated notions of citizenship? What rights could exist outside the context of state sovereignty? How can social accountability be imagined beyond the borders of towns, cities, or states? What forms of political representational legitimacy could be productive on the global level? When is it useful, possible or desirable for individuals to identify with global political communities? Drawing together a broad range of contributors and cutting edge research the volume offers chapters that seek to reflect the full spectrum of approaches and topics, providing a valuable resource which highlights the value of an extended and thoughtful study of the idea and practice of global citizenship within a broader consideration of the processes of globalization. It will be of great use to graduates and scholars of international relations, sociology, and global studies/affairs, as well as globalization.

This volume offers the insights and reflections – both critical and self-critical – of a prominent civil society activist who has been engaged in local and global struggles for emancipation for over 30 years. On the basis of his own experiences in many different contexts Kum Naidoo pleads for the involvement of ordinary people in the work for greater justice in this world. His point of departure is that civil society cannot be strengthened in a vacuum. Its achievements must be the result of actions by real people dealing with real problems. The volume deals with several of today’s most burning issues and also touches on sensitive matters within the global movements engaged in struggles for justice and equality. It does not avoid unpopular views on several issues, and advocates engagement with representatives of various agencies, including controversial ones such as faith-based organisations and the business community. While being guided by a notion of non-violent forms of resistance, the author nonetheless promotes radical alternatives to the existing reproduction of societies as a necessity to meet the challenges in securing the survival of the human species and a decent life for all. His reflections add to the search for sustainable alternatives and the potential contributions that concerned citizen action can offer. This volume thereby also contributes to a better understanding of the potential that a so-called ‘third United Nations’ can offer to global governance issues currently at stake.**P. [4] of cover.**

The essays in this edited collection argue that global citizenship education realistically must be set against the imperfections of our contemporary political realities. As a form of education it must actively engage in a critically informed way with a set of complex inherited historical issues that emerge out of a colonial past and the savage globalization which often perpetuates unequal power relations or cause new inequalities.

Defending the Environment - Joseph L. Sax - 1972

Exit, Voice, and Loyalty - Albert O. Hirschman - 1972-02-01
An innovator in contemporary thought on economic and political development looks here at decline rather than growth. Albert O. Hirschman makes a basic distinction between alternative ways of reacting to deterioration in business firms and, in general, to dissatisfaction with organizations: one, “exit,” is for the member to quit the organization or for the customer to switch to the competing product, and the other, “voice,” is for members or customers to agitate and exert influence for change “from within.” The efficiency of the competitive mechanism, with its total reliance on exit, is questioned for certain important situations. As exit often undercuts voice while being unable to counteract decline, loyalty is seen in the function of retarding exit and of permitting voice to play its proper role. The interplay of the three concepts turns out to illuminate a wide range of economic, social, and political phenomena. As the author states in the preface, “having found my own unifying way of looking at issues as diverse as competition and the two-party system, divorce and the American character, black power and the failure of ‘unhappy’ top officials to resign over Vietnam, I decided to let myself go a little.”
