Identity, Rights and Constitutional Transformation - Patricia Hanafin - 2018-12-24
First published in 1999, this book provides an analysis of the role of constitutional governance from an international and interdisciplinary perspective. The range of disciplines represented in the collection of papers aims to open new perspectives on topics that are frequently left to the expert hands of political scientists and lawyers alone. It reveals scope for the further study of historical, cultural and rhetorical approaches in tandem with traditional approaches. The blend of cross-national experience and comparisons and the formulation of one discipline by another should appeal to a wide interdisciplinary audience.

Imperialism, Race and Resistance - Barbara Bush - 2002-01-04
Imperialism, Race and Resistance marks an important new development in the study of British and imperial interwar history. Focusing on Britain, West Africa and South Africa, Imperialism, Race and Resistance charts the growth of anti-colonial resistance and opposition to racism in the prelude to the ‘post-colonial’ era. The complex nature of imperial power in explored, as well as its impact on the lives and struggles of black men and women in Africa and the African diaspora. Barbara Bush argues that tensions between white democracies and black democracies of freedom were seminal in transforming Britain’s relationship with Africa in an era bounded by global war and shaped by ideological conflict.
