Samuel Taylor Coleridge in Malta and Italy

Coleridge's Letters - Barry Hough - 2010-01-01

This fascinating account traces the philosophical and literary journeys that led, for one year, a poet who had led politically active public life as an English poet, to the British Consulate in Malta. It was this year of exasperation for Coleridge that is used as a lens into his most intimate life. The letters reveal Coleridge's ability to position powerfully socially and politically. The book is a treasure trove for all those interested in Coleridge's views and experiences of political and cultural life.

In this 1810 volume, Coleridge's nephew, son-in-law, and first editor, Henry Nelson Coleridge, compiled the first version of Table Talk, a collection of Coleridge's remarks. This includes entries on many less predictable topics (such as child labor laws, marriage, suicide, church history, the abolition of slavery, the state of the colonies) also appear. By gathering this material and presenting it in chronological order, Shorter Works and Table Talk, a volume by Samuel Taylor Coleridge, presents a comprehensive overview of Coleridge's interests. Travels and Translations of Samuel Taylor Coleridge - Samuel Taylor Coleridge - 1851

This book describes how the island of Malta became a protectorate of the British Crown during the wars against Napoleon after the failures of the Knights of Saint John, republican France, the Two Sicilies, and finally imperial Russia to fill the void created by the fall of the Knights of Malta. It also describes the British government's approach to its rich constellation of "cultural transactions," involving a variety of protagonists: explorers, writers, poets, preachers, diplomats and tourists. In particular, this book examines the understanding of Italy as a destination and set of locations, each with their own distinctive geography, culture, and historical events. During the Napoleonic wars, Italy, culture, history, colonialism, translation, travelogue, and national identity, this volume takes a cross-disciplinary approach rich with interdisciplinarity.

Deborah Manley's selection of extracts reveals how generations of writers have viewed the landscapes of Malta and Gozo, the people of the islands, the splendours of Valletta and its famous harbour, and the celebrated festas, the village festivals that celebrate the island's Catholic identity. An introduction places these extracts in context, while the anthology also considers how Maltese writers have imagined and depicted their homeland.
